Great photographers of the world

Rouben Samberg

HOW ROUBEN SAMBERG USES ANSCOCHROME FOR EXCITING CREATIVE COLOR

Problem: To record deep rich textures and bright highlights without losing detail or distorting color values.

Photographer Rouben Samberg, many-time winner of the Art Directors Club Awards, chose Anscochrome® film to solve this difficult problem.

Says Mr. Samberg, "Anascochrome's superior rendition of reds and yellows plus its high speed permitted perfect color balance and small apertures for overall sharpness. I use Anscochrome in sheets and rolls regularly . . . and no other film offers the special quality of Anscochrome."

Rouben Samberg chose Anscochrome. How about you? Ansco, Binghamton, New York, A Division of General Aniline & Film Corporation.

PSA Journal does not pay for manuscripts or pictures; all functions of PSA are based on voluntary activity. Manuscripts of articles may be submitted direct or through the Division Editors and will be returned if not usable. Manuscripts should be type-written, double spaced, and never written in all capital letters in imitation of teletype.

Closing date for news is the 25th of second preceding month, in Stamford. Trading Post items must be in Editor's hands by 20th of second preceding

month. Date of issue is 10th of the month.

The PSA Journal is sent to all member clubs and affiliated organizations. It is for the use of the entire group and not solely for the individual to whom it is addressed.

Contents copyright 1960 by the Photographic Society of America, Inc. Reproduction or use of any material contained herein without permission of the Editor is forbidden, except that member clubs and organizations may reprint, quote or abstract from

the Journal, provided the meaning is not altered, without requesting permission to do so. Views expressed in the PSA Journal are those of the authors and do not necessarily represent those of the Society.

Single copy price \$1. Subscription is included in membership dues which are \$12 a year, U.S. (See application elsewhere this issue). Public and institutional libraries, government agencies and educational institutions may subscribe at a special rate of \$5 for one year, \$9 for two years.

Past President—M. M. Phegley, Hon. PSA,
APSA, 320 W. Riverdale Dr., Glendale
Calif.

Dear PSAer:

Thank you for your recent letter ask-
ing for information on the services pro-
vided by the Photographic Society of
America. This is my opportunity to not
only answer your question, but also
reach many other PSA members who,
like yourself, may not realize what this
Society has to offer camera clubs and
other photographic groups in the way
of educational matter of wide appeal.

Within its own membership PSA has
many talented persons who, in many
cases, have spent a lifetime specializing
in various fields of photography. These
generous souls working through the
Recorded Lecture Program committee
have condensed and concentrated all
their knowledge into one compact lec-
ture which is highlighted by some of
their best photography. These lectures
now numbering 30 (with more in pro-
duction) are available to *your* club or
any club with a PSA membership at a
very nominal cost. Bear in mind that
these wonderful "how to do it" pro-
grams are products of recognized ex-
perts in the various specialized fields
of photography.

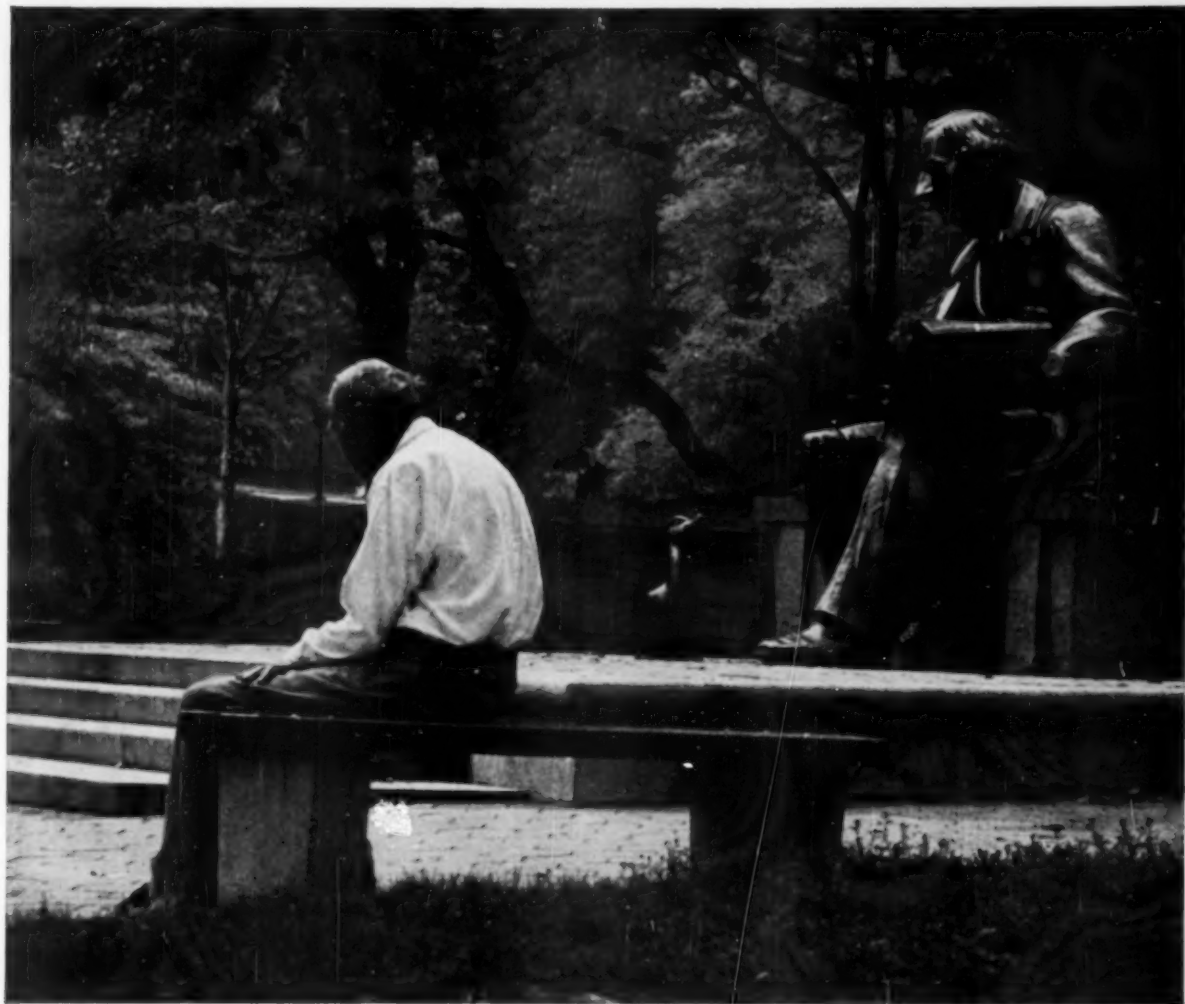

As you can imagine, the task of
recording, producing and distributing
these lectures adds up to a lot of work.
Believe it or not, Charles L. Martin
who is chairman of RLP requires the
assistance of over 40 enthusiastic
PSAers to keep this operation at top
efficiency. Since your club has a PSA
membership there is no reason you
can't take advantage of some of these
fine lectures—just have your president
or program chairman drop Chuck or
Nelson Murphy a line and ask for fur-
ther details. And be sure to read the
RLP column in each issue of the PSA
Journal which will keep you posted on
new lectures, etc.

Another service available to your club
is "TOPS". As you might guess, this
exhibition as its name implies, is a show
representing in one package the work
of top exhibitors in pictorial, color and
nature *prints* as well as pictorial color
and nature *slides*. Section I consists of
the above and Section II consists of only
the pictorial and nature slides.

The purpose of TOPS is to show the
best work of the leading print and slide
makers both in this country and Canada
in order to encourage better work by
camera club members. R. B. Horner,
APSA, is chairman of the TOPS com-
mittee and he will welcome any inquiry
from your club.

The International Exchange Exhibits
headed by Fred Reuter, is another PSA
service that many clubs use. This com-
mittee collects salon prints in this coun-
try for exchange with foreign countries.
These foreign prints complete with

(Continued on page 45)

"Memories." Photograph on Ilford FP3 Series II 35mm Film.

This is the new **ILFORD FP3** Series II

for finer grain . . . crisper definition!

ILFORD FP3 has long been the choice of critical professionals when selecting a 35mm film of medium speed.

Now, an entirely *new* FP3 emulsion is available in 35mm . . . identified as Series II on the carton . . . to give you the same superb gradation, with wider exposure latitude, the same speed rating (ASA 64), plus much finer grain and even crisper definition.

Try exposing this film at twice its speed rating and twice the enlargement you have previously used with FP3.

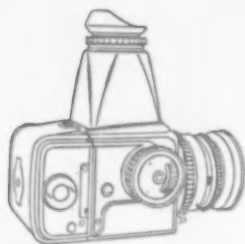

If you take pride in your 35mm enlargements—and who doesn't?—Ilford FP3 Series II is the film you want. If your regular supplier doesn't have it yet, ask him to write us.

ILFORD INC. 37 WEST 65th STREET, NEW YORK 23, N. Y.

IN CANADA: Canadian Distributors for Ilford Limited, London: W. E. Booth Co., Ltd., 12 Mercer St., Toronto 2B

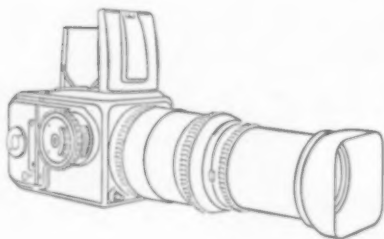

Look for "Series II" on the back of the carton.

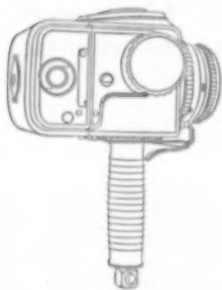

500C with magnifying hood,
60mm wide angle lens,
16 exposure magazine,
exposure meter winding knob.

How many cameras does a photographer need?

500C with 250mm telephoto
lens, sunshade,
exposure meter knob.

500C with camera grip with
release, normal 80mm lens.

If your answer is one, you've never loaded your camera with black and white film and immediately come upon a spectacular red fire.

Or found a crowd that kept you too far from a scene for your normal lens to get it.

Or found that your viewfinder couldn't focus accurately enough to handle a microscope shot.

Consider, then, this proposition . . .

A special precision camera that can be set up in seconds for virtually every shot known to photography is yours with the Hasselblad.

The interchangeable lenses, film backs, viewers, and accessories on this remarkable Swedish $2\frac{1}{4} \times 2\frac{1}{4}$ single lens

reflex give you 15 of the finest cameras in the world—in one!

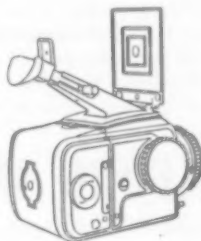

Film backs? You can switch from color to black and white in midroll! Your choice of four: 1. $2\frac{1}{4} \times 2\frac{1}{4}$ for 12 exposures. 2. $1\frac{1}{8} \times 2\frac{1}{4}$ for 16 exposures. 3. 2×2 for superslides that fit most standard projectors. 4. Adaptor back for single sheet film.

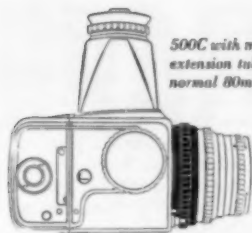

Lenses? Your choice of four, all made by Carl Zeiss of the world's best optical glass, each fitted with Synchro-Compur shutter, automatic diaphragm and coupled EVS system.: 1. Distagon 60mm f/5.6 Wide Angle. 2. Planar 80mm f/2.8 Normal. 3. Sonnar 150mm f/4 Telephoto. 4. Sonnar 250mm f/5.6 Telephoto.

500C with magnifying hood,
single cut film adaptor and
holder, normal 80mm lens.

500C with prismatic sports
viewfinder, normal
80mm lens.

500C with magnifying hood,
extension tube C,
normal 80mm lens.

Viewers? Your choice of four: 1. Standard ground glass reflex viewer with pop-up magnifier for critical focusing. 2. Sports viewer with reflex prism. 3. Sighting type sports viewfinder. 4. Magnifying hood for microphotography.

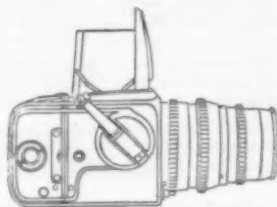

Accessories? Your choice is almost endless: exposure meter winding knob, flash gun holder, proxars, extension tubes, filters and many more, precision-matched to the Hasselblad 500C.

Picture quality with a Hasselblad is such that many studios find its color rendition and detail resolving power equal to

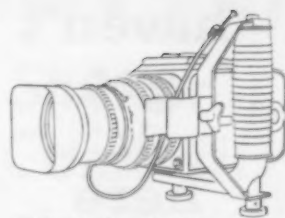

larger cameras. The EVS system, in addition, automatically adjusts aperture to any shutter speed after one setting for the correct exposure. Diaphragms can also be stopped down manually. Full synchronization for regular and electronic flash, of course.

How many cameras do you need? All that a Hasselblad can give you.

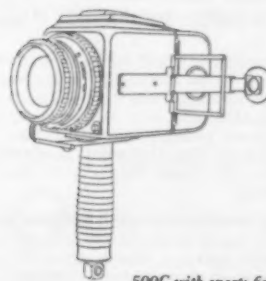

With Zeiss Planar 80mm f/2.8 lens and standard reflex viewer, \$489.50. Write Dept. HPS-2 today for literature and name of your nearest Hasselblad dealer. All prices include F.E.T. where applicable.

500C with 150mm telephoto
lens, fast winding handle,
superlide magazine.

500C with 150mm telephoto
lens, sunshade,
flash gun bracket.

500C with sports finder,
camera grip,
normal 80mm lens.

**Adox film automatically improves
negative quality—and sharpness of your lens**

Any professional will tell you—your finished print can be no better than your negative. And you automatically improve your negative's quality and lens sharpness by using the highest possible resolution film. With Adox KB-14 film (inherent resolution 150 lines per mm) your lens attains maximum resolution.

"No grain", superior image-quality inherent in Adox

Adox has a fantastically thin film emulsion with smaller, silver halide crystals. Therefore, during exposure, there is less image distortion (irradiation)...plus a definitely superior grain quality (acutance). Graininess is almost non-existent.

Prove it to yourself with giant "grainless" enlargements

The final test of any film is its ability to record fine detail; the sharpness of its enlargements. We ask only that you put Adox to your most exacting tests. See if you too don't agree with the most critical professionals—that Adox is in a class by itself.

Adox film is available in 35 mm and 120 sizes with ASA ratings of 20, 40 and 100 at FR Franchised Dealers everywhere.

Another fine product
sold and guaranteed by
The FR Corporation

EASTERN ZONE

Santa Came Emptyhanded

Santa's Helpers of the Cincinnati (Ohio) Movie Club gave a Christmas party on Dec. 21 in the lower auditorium of the New Thought Temple. Santa arrived on schedule, amid softly falling snow, accompanied by Helen Nujent, Radio Star and Promotion Manager of Radio Station WKRC who appeared on behalf of the station's annual "Neediest Kids of All" program. Through the generosity of CMC members Santa's empty sled was soon filled with toys and gifts. And of course the cameras clicked merrily all the while.

On January 18 the club held its Premiere showing of the winning films of the Cincinnati Movie Contest.

On February 15 there will be a showing of the "Ten Best Amateur Films of Canada," shown for the first time in this area. All movie makers are cordially invited to attend.—Josephine Brons reporting.

Detroit CC Council Annual Dinner

PSAer Amos DeHosse was installed as President of the Greater Detroit CC Council at their Annual Awards Dinner, December 5, at Greenfield's Restaurant, Birmingham, Mich. Joe Clark, H.B.S.S. (Hill-Billy Snap Shooter), and PSAer, was the guest speaker.

Camera Night at the Ice Capades

The fabulous Ice Capades, filled with color and movement and more magnificent than ever on its 20th birthday, was captured on film by hundreds of amateur photographers at Camera Night, Jan. 25 at the New Haven, Conn. Arena. Special arrangements were made to help camera fans get better black and white and color pictures of such magnificently costumed productions as the "Operama II," "Blue Danube," "The Moiseyev on Ice," and "Babes in Toyland." After the show the artists returned to the ice in their most magnificent costumes to pose for the shutter-bugs.

Death By Mail—An Off Beat Program

Many of us have watched a "whodunit," seen the work of investigation start "where X marked the spot" and heard the "Shamus" tell the Sergeant, "The boys from the Crime Lab will take care of that." Then we may have wondered just what those Crime Lab wizards do and how they proceed. Members of The Photographic Roundtable, a PSA club, of the U.S. Dept. of Agriculture, Washington, D.C. got the answer at the club's December program "Death by Mail," a very real, authentic, authoritative presentation, illustrated by slides, of the methods and procedures of the U.S. Post Office Dept. in tracking violations of the Postal Laws and Regulations.

Two New Jersey Clubs Share Quarters

When the Amateur Movie Soc. of Bergen County and The Teaneck (N. J.) CC were both looking for new quarters about a year ago, a room in the basement of the Town House was offered to both clubs. But much work needed to be done to make

the room presentable, so the members rolled up their sleeves and went to work installing a new ceiling, painting, fixing the floor, tile laying, building a projection booth, screen, valance, etc. Besides the tremendous physical help a call for cash donations was answered by the members giving generously of money, paints and materials, thus transforming the room into ideal meeting quarters.

Another achievement worth mentioning is that the AMSBC is now the proud owner of a B&H 202 Projector—also made possible with donations by the members toward its purchase.—From the AMSBC "Panorama."

Delaware Valley CCC Field Trip

The 20 member clubs of the DVCCC are planning to charter a Wilson Line Steamer for their exclusive use on Sunday, May 22, 1960 for a cruise along the Delaware River, starting from Philadelphia. About a five-hour trip is planned, devoted entirely to photographic activities such as demonstrations, clinics, model shooting, competitions, etc. Snack and refreshment bars will be open. The cost is estimated at about \$2.00 per person. Sounds like this might be a lot of fun.—From The Reflector (Delaware CC Bulletin.)

Assigned Subjects—Out Of A Hat

The Camera Club of Fitchburg, Mass. has three assigned subjects this year: Animals, Bridges, and Doorways. Each member picks his subject, blindly, out of a hat, and may not exchange with another member. Everett Murchie is President—and Editor of The Lens.

Greater Lynn CC Winter Outing

The Greater Lynn (Mass.) CC enjoyed a three day outing to Woodstock, Vt., Jan. 8-10. Skiing, picture taking and other photographic activities were indulged in with the gang being quartered at Woodstock Inn. Frank A. Bond was chairman of the outing.

PSAers in Brief

We hear that Ed Willis Barnett, APSA had a one-man print show from Dec. 7 to 24 at the Arts Club of Washington (D. C.). . . . Wedding congratulations to Henry W. Barker, FPSA and Alice Kneeland Grain, sailboat enthusiast. . . . Congratulations also to Elizabeth (Mrs. B. J.) Kaston, who has just been appointed Chief Editor of the Nature Div. Bulletin. . . . Alfred C. Schwartz, FPSA, was loudly applauded for his "S.O.S.—Save Our Slides" program recently at the Vailsburg (Newark, N. J.) CC. . . . Robert Hart of the Photo Guild of Detroit was recently elected Secretary of the Greater Detroit CC Council. Bob is editor of The Floodlight. . . . Raymond G. Rosenhagen, APSA and Mrs. Rosenhagen were hosts for the Kalamazoo (Mich.) CC Christmas party on Dec. 19th. . . . Marion Levy of the Color CC of Westchester (N. Y.) has been made a member of the Board of Directors of Volunteer Service Photographers.

GRAFLEX 1000 SHUTTER

**Fastest Between-the-Lens Shutter
Ever Developed for a 4x5 Camera!**

CENTRAL ZONE.

Bill Tribby is resigning as Central Zone News Editor because of illness and a new Editor will soon take over. Temporarily, send your (CST) Zone news to the Journal and we will forward it to the new Editor.

Kothary Named Admiral

Admiral K. L. Kothary, FPSA, is shown receiving his commission in the (mythical) Nebraska Navy at the hands of J. J. Conrad, assistant to the Governor of the state in recognition of his visit to Lincoln where he gave two lectures. Two camera clubs traveled 60 miles to hear him. He spent several days in Lincoln, visiting the University, State Agricultural College and hospitals and enjoying the pre-Christmas hospitality.—Sten Anderson reporting.

Mixer

Salt Creek CC in LaGrange, Ill., encourages new members to give a six to eight minute slide show of personal and exhibition slides as a "getting to know you" features. Older members feel well acquainted with the newcomer and in the "Chew and Chin" session after meetings the ice has been broken and the new members are no longer strangers.—C. E. Streeter reporting.

TV Meeting

Minneapolis Cine Club held a meeting in the studios of KTCA-TV where they saw a demonstration of the Ampex video tape recorder and saw a member's film screened on closed-circuit TV in color.—Kenneth I. Conant, Jr. reporting.

Home-Grown Meeting

Following through on its policy of having members develop and present programs to the club, Oklahoma CC had Dr. Ralph Venk talk on "Planning A Darkroom." Now they wonder if the research he did in preparation will encourage him to build one himself and get out of the kitchen! Not that it would improve the quality of his pictures which are already tops.

Tip

A good tip from the "Tips and Techniques" column of Chicago Stereo CC's Stereo Flash suggests setting your Realist lens to infinity before rewinding. This camera is focussed by moving the aperture plate back against the pressure plate and the infinity position presents the minimum

hazard of having scratches appear on your film from a piece of trapped dust or grit in the film channel. Another tip is to have patience when a film is returned. Wind it inside out and let stand for from four to 24 hours before cutting and mounting. It really takes out the curl.

WESTERN ZONE

Route 3, Box 787, Porterville, Calif.

Editor: A. H. Hilton, APSA

Best of the West

The "Ten Best of the West" Festival was sponsored recently in Salt Lake City, Utah, by the Utah Ciné Arts Club. The many who attended from other states as well as here look with proud remembrance on the excellence of the entire affair. It was held in the new Utah Hotel Motel.

The winners this year are Julia Glasshoff, Los Angeles, with her "Children of Hope"; Pete Delaurenti, Renton, Wash., "Journey to Yesterday"; Dick Jefts, Whittier, Calif., "From the Void"; Clyde Cook, Woodland Hills, Calif., "Summer Reflections"; Ed Garwood, North Hollywood, Calif., "R"; Irene and O. L. Tapp, Salt Lake, "Those Other Years"; George Pasto, Portland, Ore., "The Time of His Life"; Thelma and Al Morton, Salt Lake, "The Trailer in the Pines"; Truman Eli, North Hollywood, "Fantasia."

All of the speakers did a real "bang-up" job. Especially were we proud to have George Cushman, head of the Movie Divi-

THE MORE YOU KNOW ABOUT PHOTOGRAPHY...THE MORE YOU WILL COUNT ON KODAK

Check up now on darkroom needs

1. The swing is to Kodak Polycontrast Paper because it gives you full control of contrast with just one box of paper. Polycontrast Filters create all four contrasts, plus half-grades in between. Choice of surfaces . . . four in all. Kodak Polycontrast Paper for enlarging or fast contact printing . . . Kodak Polycontrast Rapid Paper for fast enlarging . . . both warm-

black. Kodak PolyLure Paper for extra image warmth and richness, especially fine for portraits. 2. Best way to proof or enlarge your Kodacolor negatives in black-and-white—panchromatic Kodak Panalure Paper. 3. To keep all the quality that's in your negatives, Kodak Enlarging Ektanon Lenses are specially corrected to produce flat fields and sharp images at

the short distances used in enlarging. Focal lengths from 5 $\frac{3}{8}$ inches to 10 inches. 4. Best clock for your darkroom—a Kodak Timer—just \$10.50. 5. For accurate color film processing, rely on a Kodak Color Thermometer, accurate to one-half degree at critical 75°F and 68°F temperatures—\$3.75. 6. Measure solutions accurately—Kodak Darkroom Graduates

sion of PSA and Tullio Pellegrini among them. Their speeches were "How to Write and Plan Story Type Films" and "Pictorial Continuity," respectively. Al Morton's story on "Photography as a Hobby" was also outstanding.

Vince Hunter of Brush Prairie, Wash., was Master of Ceremonies.—*Mattie C. Sanford reporting.*

Down in San Diego

The past fall brought a great loss to the San Diego area Camera Clubs with the passing of Harper A. Kelly, a PSAer long connected with all camera activities of that area.

Walter E. Harvey, APSA, announces the selection of the officers for San Diego's coming Photofab, to be held in March, 1960. Earl Beebe is the general chairman, Paul Cleer, treasurer, while La Vert Hendricks again takes over the duties of secretary.

The meeting will be held at the La-Fayette Hotel at 9:00 A.M. March 6, with an all-day meeting scheduled. Members attending will be comprised of PSA members of San Diego, Imperial and Baja, California counties. Those PSAers visiting these areas are always invited to attend.

The Hawaii Chapter

The Hawaii Chapter just completed its election for 1960: President, Thomas K. Bakken, Pearl Harbor Club; Vice President, Helen Davis, Rainbow Club; Secretary, Ursula (Su) Largosa, Pearl Harbor; Treasurer, Marie Neuffer, Rainbow Club; Director (for 2 years), Walter L. Davis, Rain-

bow Club; holdover director, William M. Pitchford. Urban Allen served as chairman of the nominating committee.

News from the Northwest

Two members of Spokane CC, Elsie Poorman and Burton Belknap, were internationally honored recently by having a reproduction apiece in Denmark and Russian newspapers, respectively. Elsie's print was of her dog, and Burton's of Mt. Spokane.

Tacoma Photographic Society instituted a "Hawaiian Night" in November at which Larry McKinnis of Seattle presented his tape-recorded color slide show of outstanding pictures taken in the islands. Costumed dancers, colorful decorations, exotic music and "Hawaiian" punch served during the coffee break helped set the tropical atmosphere for the evening, which was a huge success with 150 persons attending.

Recent club programs of special interest include a presentation at Spokane Valley CC by one of its members, Leo Ostreicher, who gave many excellent ideas on making various types of Christmas cards. At Bremerton CC, Dr. C. W. Biedel demonstrated his technique for copying slides. Bellevue CC was privileged to witness a different kind of demonstration by C. F. Todd, fellow-member, on how to put clouds into a picture that had none of its own.—*Winnie van Sickle reporting.*

Excerpts from Montana

Bob Hamilton, our AR, can find the most opportunities to get in a plug for PSA, as

well as being an ardent club worker. And, for these reasons, many times the news of the Billings Camera Club and its members gets lost in the file of the "things to do as soon as I have time."

So, again, I am interfering, because so many little things that solder a group into a working unit have occurred: a few minutes each meeting towards solving the problems of the newer members; a display of prints in the lobby of the bank building (to prove to the city that we are an active force) and despite sub-zero temperatures and blizzards the whole week, we had some five hundred signatures in our guest book and the satisfaction of having hundreds more view the prints briefly; our first "annual awards" dinner, patterned after the PSA Honors dinner; and now, this show by Denes Istvanffy.

Denes, who is the PSA "Who's Who," devotes as much time toward helping the Billings Camera Club as he does toward furthering his own progress. This slide show, with a "movie" pace, proves that imagination is the key used to create a living sequence from dusty, age-dulled objects. I am enclosing the invitation Denes sent to me, as well as the newspaper report of the show. His work should be an inspiration for all who live "out in the sticks."—*Beryl Irwin Porter.*

PSA Roundup

The Winter Roundup for PSA members in Southern California convened January 31 at the Statler-Hilton Hotel in L. A. Larry Foster, APSA, took over from

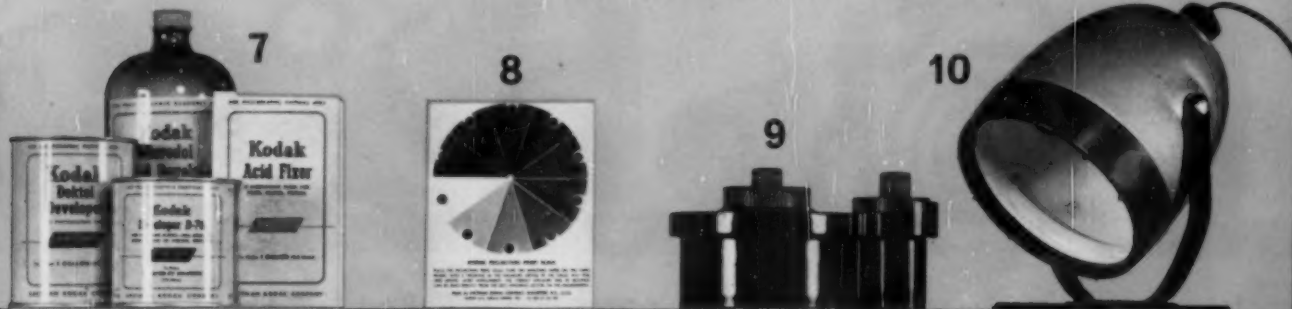

Choose the right paper to give you plenty of working freedom, easy control of contrast, real economy, and convenience. Kodak Polycontrast Paper has these qualities.

Choose a Kodak Enlarging Ektanon Lens to bring the full quality of each negative sharply to the printing paper.

Choose the right chemicals—pure and dependable Kodak chemicals—to awaken the full latent potentials of film and paper.

Choose "little things" to make work go briskly—like Kodak graduates that pour smoothly, a Kodak darkroom lamp that adjusts easily.

To enjoy your darkroom more, choose equipment and materials made by Kodak.

—8, 16, 32 ounces—\$.65 to \$1.60. 7. Kodak Prepared Chemicals are standard and dependable. Some favorites—Kodak Dektol Developer for papers, Kodak Developer D-76 for most black-and-white films, Kodak Acid Fixer for general use. Many

more Kodak chemicals available—all of finest quality and purity, accurately compounded. 8. Save paper with a Kodak Projection Print Scale. Gives accurate test strip of 10 densities with one exposure—\$1.45. 9. Process your No. 135 film

in full light with a Kodak Day-Load Tank—\$11.50. 10. Have safe light where you need it—Kodak Adjustable Safelight Lamp fastens to wall or bench—\$11.50.

Prices are list and are subject to change without notice.

EASTMAN KODAK COMPANY, Rochester 4, N. Y.

Kodak

Claude Brooks as Roundup chairman; Ed Jones, vice-chairman; Chalmers Graham, treasurer; Margaret Phegley, executive secretary; Nellie Lloyd, registration; Art Miller, publicity; Dr. Chester Roberts, membership; Orissa Van Brocklin, hospitality; and Oliver Rockwag, printing, make up the administrative committee for 1960.

Division chairmen are: Charles H. Smith, Pictorial; Edward (Ted) Taylor, Techniques; Florence Harrison, APSA, Photo Journalism; Olive Benzel, Color; John Kell, Nature; George Pond, Stereo; and Stuart Ogg, Motion Picture; while the steering committee consists of Mel Phegley, Hon. PSA, APSA, Floyd Evans, PFSA, George Cushman, APSA, Claude Brooks, Bosworth Lemere and Ellsworth Fiscel. Attendance at the meeting was right around the five hundred mark.

The featured after-luncheon program was an elaborate, big-stage posing demonstration by glamour expert Danny Rouzier, M. Photog. of Hollywood. Morning workshops included Dr. Ronald A. Greene's get-together session for makers of paper negative prints, Dr. Harold Thompson's "Colorful Japan" (slides); "Nature and the Hand of Man" by Chas. and Velma Harris; "Color Portraits" by John Platz; "How B. & W. Film Is Made" by Eastman Kodak; "The World We Live In" (stereo); "How to Make Prize-winning Films" by Vincent Hunter and Robt. Board, and "How To Make Your Camera Pay Its Own Way" by Norman Phillips.—Art Miller reporting.

CANADIANA

Editor: Rex Frost, FPSA
37 Bloor St. W., Toronto

Belleville, Ont.

Belleville CC believes in making its monthly bulletins interesting and informative. Recently quoted a statistical survey from an English magazine regarding processor's experiences with color film.

Of roughly 18 million slides processed, 5,678,910 were overexposed; 4,567,890 were underexposed; 1,419,753 were out of focus or otherwise unsharp; 354,678 had heads cut off; 37,983 slides were sent for processing, without having been exposed.

Add to these miscellaneous other faults, and the net result shows that the color fans finished up with 34,000 decent slides. They figure recipients of the 18 million slides spent 3 million viewing hours giving them the once over.

Mathematicians Wally Kirkpatrick and Hedley James of the Belleville CC have it worked out from the survey that it cost every five-eighths of a color fan something like \$83.73 to get one good slide!

Appropriately, the Belleville club recently programmed the PSA lecture "Prints I would never send to a Salon."

Asst. Zone Directors

ZD Jim McVie has been authorized by Pres. Robert Goldman to appoint two assistant ZD's, one for Eastern Canada, and

one for an area to be known as the Central Canadian zone.

Accordingly Jim has named Frank Simard, Montreal, AZD for the former zone, and Cliff Pugh, Toronto, AZD for the latter. Congratulations to the appointees.

Royal Acknowledgement

Jim McVie has received a letter from Buckingham Palace, London, England, which reads . . . His Royal Highness the Duke of Edinburgh has now had an opportunity of looking at the photographs enclosed with your letter of October 7th, and is indeed pleased with them. His Royal Highness thanks you very much for your kind thought in sending them to him.

The photographs referred to were those of the Duke's Royal Sloop, "Bluebottle" in some terrific west coast action, taken by Jim.

Pacific Northwest PSA Regional

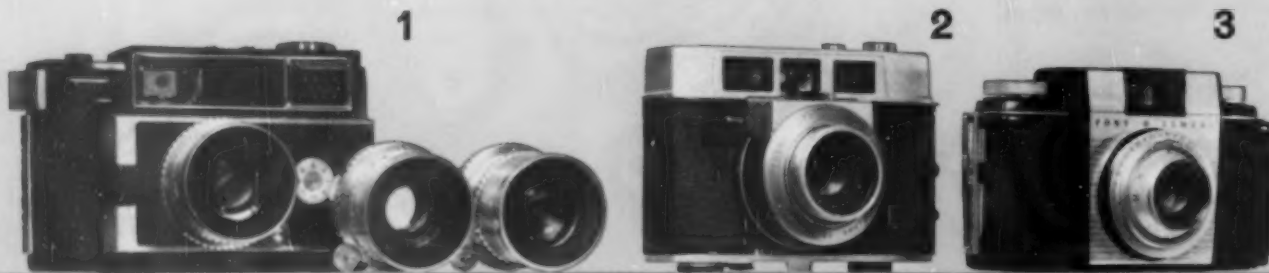

The Admiral has laid on "Oriole" under full sail, and four 75 ft cruisers to take Convention personnel on a Field Trip (or should it be Ocean Trip) to open the Victoria Regional, Friday afternoon, June 10th, next.

Brantford, Ont.

Ward McClelland has taken over the Presidency of Brantford CC from temporary Pres. Cec Barrett, who filled the gap caused by LaVerne Ilsley's resignation occasioned by her moving to another city. Brantford CC has a good idea, the Ernie Goose competition which calls for 'A print

THE MORE YOU KNOW ABOUT PHOTOGRAPHY...THE MORE YOU WILL COUNT ON KODAK

For 35mm versatility...

1. Kodak Signet 80—the expert's camera that does everything so easily. You're versatile with the Signet 80—because the fast 50mm rare-element $f/2.8$ Kodak Ektanar Lens interchanges instantly with a 35mm wide-angle or 90mm telephoto.

You're sure—because you have an accurate exposure meter built right in, a coupled rangefinder, and precise, easy viewfinding that shows your subject life-size.

Other luxury "35" features: Rapid "injection" film loading. Shutter speeds to 1/250.

Single-stroke film advance. Plus full family of photo aids. Kodak Signet 80 Camera with 50mm $f/2.8$ lens, \$129.50.

2. Kodak Automatic 35 Camera—for new creative freedom. You get a new kind of picture-taking pleasure, new freedom to concentrate on pictures, with the Kodak Automatic 35.

The fully automatic electric eye meters the light, sets the lens aperture, gives you automatic range from $f/2.8$ to $f/32$ for films

from 10 to 160 ASA.

Plus: Fast single-stroke film advance. Projected luminous-frame finder. Fast focusing by zones. Only \$84.50.

3. Kodak Pony II Camera—simple-to-use 35 for young photographers. Features fast 44mm $f/3.9$ lens, EV settings, zone focusing, Kodalite flash fittings, large optical finder.

Lowest-priced Kodak 35 camera of all at \$29.50. See the Kodak Pony II Camera at your dealer's.

you can live with' . . . a little heard of project around the CCs.

Toronto Guild for Color Photography

Ted Amsden was after dinner speaker at the 1959 Metro CCC Jamboree in New York, and showed his PSA National Convention lecture "Confessions of a Color Slide Exhibitor." Ted puts on the same routine for the Greater Washington (D. C.) CCs in April and to the Sarnia, Ont. Annual Banquet in May. Too, Ted is scheduled to judge Baltimore's Internatl. Color Slide exhibition, for the Greater Maryland Council of CCs. All of which is getting around.

Nature

This season, Toronto CC has programmed four special nature slide nights. Kay McGregor, commenting on the first of these reports 73 pictures entered, everything from a toad's eye to a flash of lightning, meaning plenty of variety. Janet Goodwin, Mary Tacon and Mildred Morgan did the judging. Pres. Dick Thomason showed the No. 1 slide.

A useful and informative column in Toronto CC's bulletin, Focus, for many years has been How to Print (and/or Slide) of the month was made. More clubs should use a feature of this kind. Evelyn Andrus has just started a column captioned Have You Heard? a newsworthy comment on what's new and different in photographic products and services.

Vancouver

At a recent meeting of Vancouver Pho-

tographic Soc., Cleo Coe was presented a very neat brief case, "in recognition of the many, many years of service performed by him for the Society." Replying, Cleo presented to Secretary Neil Ross a copy of the original constitution of the VPS, dated 1901, for filing with the records.

National PSA Club Slide Contests

Niagara Falls Color Forum continues to do well in these competitions, currently stands in 4th place in Class A, best showing of any Canadian CC in the different classes. Toronto Guild for Color Photography stands tied for 6th place in the same class, 3 points behind Niagara.

Montreal

Montreal CC continues to enjoy active support from its long time members. In Dec., Wally Wood and J. W. Campbell contributed lectures. A third Dec. program listing included a PSA recorded lecture by Ragnar Hedenvall.

Two Club working parties addressed and mailed 4,000 forms for Montreal's International Salons, to be held in March.

Chatham

Chatham CC bulletin, Out of Focus, congratulates Ken Cucksey for winning top award in the salon monochrome division in the annual contest of the Greater Detroit CC Council. 20 Clubs were represented in the competition.

Send news of your club and yourself to the Zone Editor or it will never get into print!

Mexico

FELIX NIETERT, from West Berlin started a trip around the world by bicycle, thru Europe, India, Malaya, Hong Kong & Japan, where he received as gift a motorcycle; then by ship to Chile, South America, and thru the entire American Continent, ending up in Alaska, to embark for Japan, thence to China, Russia, Europe & back to starting pt. When in Mexico, D. F., visited CFM, showing slides picked from 5,000 then taken. (del Berlin Occidental, inició un viaje alrededor del mundo en bicicleta, a través de Europa, India, Malaya, Hong Kong y Japón en donde recibió una motocicleta regalada. Se embarcó hacia Chile, S. A., para recorrer el Continente Americano hasta Alaska, en donde nuevamente embarcó al Japón, para seguir por China, Rusia y Europa, hasta su lugar de origen. Al pasar por México, D. F. visitó transparencias escogidas entre las 5,000 tomadas.)

Camera Clubs

Editor: Henry W. Barker, APSA
392 Hope St., Glenbrook, Conn.

Every now and then this scrivener yields his space to someone who has something of importance to impart to camera clubbers. This month we're happy to step down in favor of Col. James W. Ross of San Francisco, who deposes as follows:

The holding of a city "Photography Day" is a project that might well be undertaken by any camera club. There is no better way of promoting interest in amateur photography.

An annual Photography Day has been conducted jointly by the Northern California Council of Camera Clubs and the City of San Francisco Recreation and Park Department for a good many years. However, the size of the photographic group or of the city has little, if any bearing on the success of such an undertaking.

We know that amateur photography

goes right into the home and the hearts of almost every family. If there is not a photographic hobbyist in a home, it still is highly probably that the family is composed of people who in one way or another use and enjoy photography in their everyday living. All of them welcome the opportunity to see good pictures.

We suggest that wherever practicable the Photography Day program be conducted jointly by the club and the city. The procedure to follow in arranging the event is to have the club prepare an outline of plans early in the season, and then present them to the appropriate city officials, preferably those who have to do with recreational or park activities.

Photography Day can be as simple or as elaborate as desired. There isn't much difference in the amount of work required. The program can best be presented outdoors in a city park during pleasant summer weather. The city will be called upon to provide encouragement and facilities. The local press can be helpful, too. The club should arrange to be completely in charge of everything pertaining to photography. All amateur photographers in the area should be encouraged to participate, whether or not they are members of the sponsoring club.

Here are 3 smart ways to

1. New Kodak Zoom 8 Camera (Automatic f/1.9)

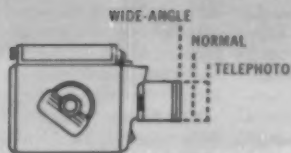

Smart—because it lets you make professional zooms with a flick of your wrist... while an electric eye automatically sets the lens for you.

To zoom in, you slide the lens barrel forward and you go smoothly from a wide-angle to a telephoto view of your subject. Slide the lens barrel back and you zoom away.

This versatile Kodak Zoom Lens also works like a three-lens turret. You can set it for wide-angle, normal, or telephoto shots without removing the camera from your eye.

Sensitive electric eye sets the lens automatically to any light, signals when light is poor. Meter dial adjusts for film speeds from 5 to 40.

Also: enclosed telescopic viewfinder with adjustable eyepiece; footage meter that resets automatically. It's well worth a visit to your dealer now to see the new Kodak Zoom 8 Camera. \$139.50

THE MORE YOU KNOW ABOUT PHOTOGRAPHY... THE MORE YOU WILL COUNT ON KODAK

There should be a colorslide division and a black-and-white division, with such classifications in each as are desired, such as landscapes, portraits, pets, etc.

The cost of presenting a Photography Day program is comparatively low. Admission to the show is, of course, free. Space in a city park costs nothing, and there may be a stage available, or a suitable substitute. Benches or folding chairs may be on hand for use during stage performances. Racks for displaying prints can be provided by the city or the club at little cost, and can be used from year to year. (New Haven clipped prints to a "clothesline.") Trophies should be provided for those who win places in the competition. Most photographic dealers and other commercial establishments can be prevailed upon to donate trophies if they're told that proper credit will be made when the trophies are awarded.

All plans should be completed well in advance of the show. Pictures should be collected and pre-judged so that they can be on display for the public throughout the show. There should also be displays of commercial exhibits of photography, demonstrations of technical processes, collections of pictures of one or two leading photographers or groups. And the excellent exhibits avail-

able from PSA should not be overlooked.

When all is in readiness, and before the stage show begins, time should be allowed for a sizeable crowd to gather and make an inspection of the exhibits. At a specified hour, music can be played over a PA system, announcing to the crowd that the show is about to begin.

The music can be followed by whatever may be decided by the committee—singing, dance numbers, a selection of "Queen of Photography" from among local beauties, and the crowning of the "Queen" by the mayor or some other local official.

Presentation of awards to participants can be the finale, and if well done, the audience will depart with the firm conviction that Photography Day should be an annual event.

The amount of work spread among the members of a club is light. The cost will be low, and the pleasure of having made a worthwhile contribution to the life of the community will be great.

Developing Color Film "Back-To-Back"

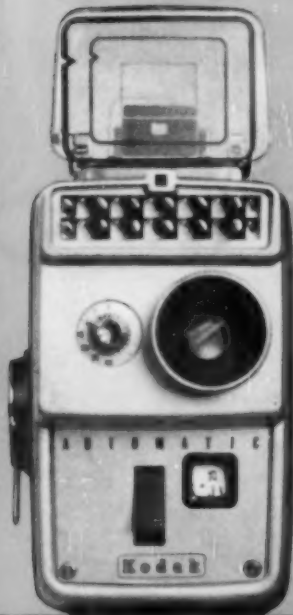

PSAer Charles A. Maciejak of the Metropolitan Stereo Club (New York City) likes to experiment. One day he had six rolls

of 35mm Anscochrome to develop in his home made stainless steel tanks, each made to hold four Nikon 35mm reels—and one quart of Ansco color developer. But he had only a pint kit of developer on hand, enough to cover 2 reels.

To solve the problem Charley loaded two rolls (an old black and white trick) on each reel by taping the leading edges of the films (back to back) together with masking tape. He then inserted the film in the Nikon semi-automatic film loader and aligned the opening in the Nikon reel to accept the leading taped edges, started the reel rotating, feeding the film into the reel without a hitch. For exposure to the #2 photoflood Charley took the precaution of submerging the films in their reels in a sink full of water and then holding the lamp a few inches above the surface of the water, deliberately giving it five minutes to allow for the possibility that the two thicknesses of film might retard exposure. Care should be exercised in moving the films about in the sink so the reels will not scratch the films.

Incidentally, he developed the six rolls in the pint kit, instead of the five called for and found no color deterioration. Charley recommends, when loading the two films into the reel, that it would help if one of the films were rolled up in its container for a few days with the emulsion side out, allowing both films to curl in the same direction while loading the reel.—*Edited from MSC News.*

start making movies

2. Brownie Automatic Movie Camera,

f/2.3 Smart—because the Brownie Automatic frees you to concentrate on the content of your 8mm film. The built-in electric eye automatically keeps your exposure right in any light, even warns you when light is poor.

Also: dial adjusts electric eye for film indexes from 5 to 40; multi-frame finder shows fields for wide-angle and telephoto converter lenses; footage meter resets automatically. Only \$74.50

3. Brownie Movie Camera, Turret f/1.9

Smart—because this 8mm Brownie Camera gives you the versatility of a sharp-shooting three-lens turret... at a budget price! Just turn the turret to take normal, wide-angle, and telephoto scenes with a fast f/1.9 lens system. Only \$67.50. Single-lens models from \$32.50

Division Officers And DRs Named For 1960 Elections

PSA Elections for 1960 will cover the Division officers and the District Representatives for terms starting at the 1960 Convention in Houston.

The several Nominating Committees having rendered their reports to the Secretary of the Society, publication in this issue of the Journal starts the election machinery rolling. Under PSA By-Laws additional nominations may be made by members as explained below, in which case ballots will be cast for the contested offices. Otherwise, election is automatic. The nominations:

Color Division

Chairman Maurice Lank, APSA
1st Vice-Chmn. R. B. Horner, APSA
2nd Vice-Chmn. J. L. Kenner, APSA
Treasurer Irving A. J. Lawres
Secretary Mrs. Sarah B. Foster

Motion Picture Division

Chairman George Cushman, APSA
Vice-Chmn. Esther Cooke, APSA
Vice-Chmn. Tullio Pellegrini, APSA
Sec'y-Treas. Lucille Kiester, APSA

Nature Division

Chairman Alford W. Cooper, APSA
Vice-Chmn. George W. Robinson, APSA
Treas. Leonard A. Thurston, FPSA
Secretary Mrs. Lillian Walsh

Photo Journalism Division

Chairman Vincent L. Stibler
Vice-Chmn. Don Mohler, APSA
Sec'y-Treas. Harold Davison

Pictorial Division

Chairman Ralph Mahon, APSA
Vice-Chmn. Frank Cooper
Treas. Larry Foster, APSA
Sec'y Mrs. Margery Barrett

Stereo Division

Chairman Lewis F. Miller, APSA
Vice-Chmn. Mrs. Ruth I. Bauer
Treas. Paul S. Darnell
Sec'y Mrs. Elyga Wenger

The nominations for District Representatives follow. Note that a few states have more than one DR.

The Magic Book

Starting on page 49 of this issue you will find the magic book with the list of all our members, the geographical index, the honors and awards lists, the by-laws and honors instructions. You may want to take out those pages for travel use and a special binding makes this possible.

To separate the directory pages, gently remove the back cover and scrape the glue along the edge near the center (vertically) to expose a staple. (The center one of three.) Lift the ends of this staple. Now insert a knife blade between pages 48 and 49 and slice down the backbone. You will encounter only one staple here. Work the book over it, or rap the knife sharply to bend the staple down. Repeat from the other side. Work the directory pages off this staple, bend it down over page 48 and re-glue the cover on page 48. Two staples hold the directory pages.

Under Article VII of our By-Laws, Sec. 5 *et seq.*, petition nominations may be filed with the Secretary for additional candidates for any of the offices listed above. In the case of Division officers the petition must be signed by 25 members in good standing and be accompanied by a letter signed by the candidate that he or she will accept if elected. In the case of District Representatives only 10 names are needed for the petition. Any petition must reach Headquarters by April 1 to be effective.

Scotty Sapiro, professional-industrial photographer.

Proudly announcing the 1960 new Realist custom

stereo camera

"Trifles make perfection, and perfection is no trifle."

— Michelangelo

As in a few fine motor cars or a few fine watches, Realist's basic excellence of design and performance has precluded frequent model changes merely for the sake of novelty. Instead, the new Realist Custom Stereo represents the triumph of "small things made perfect" to bring you the finest precision instrument ever built for stereo photography.

The crisp functional styling that won Realist a place in Milan's International Design Show is still there—but subtly brought up to date. The new f:2.8 lens system reflects the combination of new rare-earth glasses and improved skills which have revolutionized the optical industry. Realist's new optically matched lenses have a resolving power up to 300 lines per millimeter. The simplicity of operation that has made Realist the choice of amateur as well as professional is retained—and quietly brought to an even higher degree of loading and handling ease.

There's a lot to talk about... a lot to enjoy—and still more reason to step up to the fun and excitement of matchless stereo photography in the new Realist Custom Stereo! Experience the feel and look of excellence at your camera dealer's! Retail price, \$215.00.

The World Famous Realist Stereo Camera Made Better Than Ever!

Realist[®] inc. Subsidiary of the DAVID WHITE INSTRUMENT COMPANY
makers of fine optical equipment for over 60 years • 2051 North 19th Street, Milwaukee 5, Wisconsin

ignorance of any PSA elections! Rarely having seen a ballot, this is understandable. If no petitions are filed there is only the single slate and the By-Laws provide that if there is no competition the Secretary casts a single ballot for all candidates.

When there is a petition nomination for a national office ballots are printed and mailed to all members; for a division office, to the members of that Division; for a DR to the members of that district (state). Postage alone on a national ballot is in excess of \$400.00.

So if there are no petitions by April 1, all candidates listed by the several nominating committees above will be declared elected and will take office at the end of the Houston Convention in October. If there are any petitions the balloting will be completed by July 1 and the results will be announced in the next following Journal.

Official Business

Board Meetings

The first three meetings of the 1959-60 Board of Directors (held October 6 and 10, 1959 in Louisville, Kentucky and December 5, 1959 in New York City) were busy ones. In addition to approval of minutes, financial statements, Committee Chairmen appointments, and Honorary Representative recommendations, a number of actions were taken of vital interest to Society members. Here is a summary of Board activity:

Honorary Representative Appointments

| | |
|----------------------|----------------------------------|
| Australia | Mr. Allen C. Gray |
| Belgium and Holland | Mr. Dick Boer |
| Brazil | Mr. Thomas J. Farkas |
| Cuba | Mr. Angel deMoya, Hon. PSA, FPSA |
| Dominican Republic | Mr. Juan Ulises Garcia |
| France | Mr. Edoward Belin |
| Great Britain | Mr. Percy W. Harris, FPSA |
| Hong Kong and China | Mr. Francis Wu, Hon. PSA, FPSA |
| India | Mr. J. N. Unwalla, FPSA |
| Israel | Mr. Efram Ilani, APSA |
| Japan | Mr. Hisakichi Kikuchi |
| Mexico | Mr. Manuel Ampudia, APSA |
| New Zealand | Mrs. Irene A. Cooper, APSA |
| Singapore and Malaya | Mr. Wan Tho Loke |
| Union of So. Africa | Mr. Nat Cowan, APSA |
| Sweden | Mr. F. Victor Hasselblad, APSA |
| Venezuela | Mr. Frank J. Delima |

Standing Committee Chairmen

HOW WOULD YOU HAVE LIGHTED THIS PICTURE?

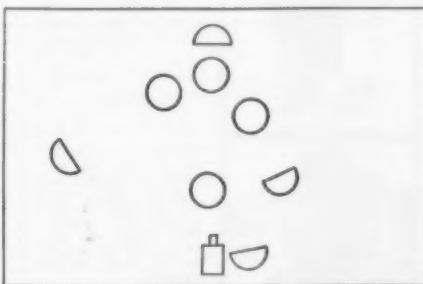

NEWS PHOTOGRAPHER LARRY GEORGE DOES SOME SHARP SHOOTING WITH G-E No. 5 FLASHBULBS

"My assignment was to photograph the actors in a high school Western play," writes staff photographer Larry George of the Indianapolis News. "I wanted a picture that would capture the mood of the play and show the principals in some dramatic way."

"It was late at night, during rehearsal. The only existing light came from a few overhead lights on stage. I decided G-E No. 5 Flashbulbs would be perfect for the job. I placed four of them on extensions, all sync on camera...three

on the background group and one side-lighting the principal subject in the foreground.

"My camera was a 4x5 Speed Graphic with wide-angle lens, placed at floor level. Exposure 1/50, f22. G-E No. 5's again proved to be the perfect solution to a tricky lighting problem."

GENERAL ELECTRIC PAYS \$50.00 upon acceptance of photographs illustrating difficult lighting problems you've solved with General Electric Flashbulbs. Send your picture with a detailed description to: Photo Lamp Dept., General Electric Company, Nela Park, Cleveland 12, Ohio.

New Nominating Committee to take office January 1, 1960

George Driscoll, APSA
R. B. Horner, APSA
George Merz, APSA
Ollie Romig, FPSA
Dr. John Super, FPSA
(Members of the committee elected Mr. Romig Chairman).

Honors Committee additions

Leonard Thurston, FPSA
Charles Norona, APSA
(Dewitt Bishop, APSA, will serve a second term as Chairman in accordance with a practice adopted by the Honors Committee).

Considerable discussion centered about the use of an Officers Committee to assist the President in conducting the business of the Society when the Board is not in session. Mr. Phegley advised continuing the Officers Committee, pointing out how valuable it had been to him in settling many matters too time-consuming to be brought before the entire Board. President Goldman discussed how such a committee could function quickly when matters needed immediate action. It was voted to reaffirm the Officers Committee for a two year term.

Joseph Bernstein requested admittance to the October 10 Board meeting and presented a letter to the President he had received from Ivan Dmitri inviting PSA to participate in the "Photography in the Fine Arts" program by representing the amateur field and by assuming responsibility for searching out entries. Preliminary screening is contemplated in art museums throughout the land and PSA will be asked to help with the details. It was voted to endorse PSA participation in the "Photography in the Fine Arts" project and Joseph Bernstein was appointed Chairman of a Special Committee to explore PSA assistance to PFA.

To be continued next month.

Only 2 Sylvania long-duration FF-33 flashbulbs, fired simultaneously, provided all the light for this 28-frame sequence exposure.

How Sylvania's new FF-33 long-duration flashbulbs provided light for this 28-frame sequence photography

Mr. Howard Hammersley, Jr., Photo Manager of The Roanoke Times and The Roanoke World-News, reports: "The 1.75-second duration

of the new Sylvania FF-33 flashbulbs gave me all the light to take these 28 frames. Using a Hulcher 70 camera equipped with 162mm lens, I fired at 20 frames per second, shutter speed of 1/720 of a second.

"Two Sylvania FloodFlash FF-33 lamps, fired in a Graflite gun (three cell) and 15-foot extension, furnished all the light to expose approximately 25 feet of 70mm film.

"Since FF-33 lamps are as easy and convenient to use as regular flashbulbs, I can see many new interesting possibilities in using them with high-speed sequence as well as high-speed motion picture cameras."

Whenever and wherever fast action occurs, the Sylvania FloodFlash

FF-33 lamp helps you get exactly the picture you want. This revolutionary lamp operates on small photo-flash "D" batteries. No bulky power cables, remote power sources or high heat common with floodlightings.

Get some today from your regular Sylvania supplier. For complete specifications on the FF-33, write:

Headquarters Improvement Fund Drive In Full Swing

35% Of Quota Achieved In 75 Days

Have You Given?

**By Irving A. J. Lawres, Chairman,
Headquarters Improvement Fund Committee**

The Society's drive for decent Headquarters' accommodations is off to a great start with more than 35% of the \$55,000 quota attained in 75 days!

While this is an impressive beginning, the Headquarters Improvement Fund Committee realizes that there is much difficult work ahead. The enthusiastic and the generous tend to respond to the first appeal but ultimately every responsible PSA member will

have to give according to his means if the goal is to be attained.

To assist you and your camera club in arriving at a decision relative to a contribution to PSA Headquarters Improvement Fund the following typical questions are presented with answers formulated to the best of our ability.

Q. How much should I give personally?

A. Only you can decide that in the light of your financial resources and your debt to photography. We have one gift of \$1,000; a number of \$500; quite a few \$50 to \$250; and many, many smaller ones. We had hoped that each PSA member, if possible, would set himself a \$20 minimum, with those who can afford it going on up to \$50, \$100 and more.

Q. I made a modest contribution at the last convention when I knew very little about the need for Headquarters rehabilitation. May I add to that now by making a supplementary contribution?

A. Of course. Some PSAers have already made substantial supplementary contributions. Some members may have started out with \$10 or \$50 whereas we have reason to believe they will ultimately give \$20 or \$500.

Q. Will I get any receipt or acknowledgment?

A. Yes. In addition to a receipt, every donor of \$10 or more will receive a handsome "Certificate of Recognition" suitable for framing and his name will be entered on the Honor Roll that will ultimately be erected at Headquarters.

Q. I would like to give a substantial gift in stock

because if I sell it the taxes will take a big bite. Is that OK?

A. You bet! Some members are doing just that. This type of transaction is particularly suitable in the case of a donor in the higher income brackets who has shares of stock on which there is a large market appreciation. Such gifts are tax deductible. See your lawyer or banker or get in touch with Headquarters.

Q. How about bequests—"remembering PSA in my will?"

A. Fine—but PSA needs a certain amount of money right now. (But bequests are also welcome. If every PSAer would remember the Society in the amount of \$100 and upward in accordance with his means, the future of the Society would be assured. A substantial bequest is a wonderful idea for the future but try not to forget the modest contribution that is needed today.)

Q. Is Headquarters really in such bad shape?

A. Yes. We have personally inspected it. Walls are sagging and plaster falling; work space and facilities are obsolete and inadequate. The premises are quite unrepresentative of the great Photographic Society of America. It needs attention right quick!

*now...the famous NIKKOR f1.4 with automatic diaphragm
for the NIKON F automatic reflex*

Here's great news! The famous Nikkor f/1.4—acknowledged to be the world's finest high speed lens—is now available with instant-reopen automatic diaphragm for the new Nikon F Automatic Reflex.

The diaphragm of the new 58mm Auto-Nikkor f/1.4, internally coupled to the camera, is always wide open for focusing and viewing. At the instant of exposure, it automatically closes down to the pre-selected 'taking' aperture—then, instantly, it reopens to f/1.4, in readiness for the next picture. There is nothing to re-set, nothing to wind, no fumbling, no fuss.

Never before has a 35mm reflex been offered with a lens of such speed—much less, a lens of such quality. Your very first

glimpse through the finder will reveal the brightest image you have ever seen. You will become aware of a new comfort in viewing, a new assurance in focusing. Even in the poorest available light, you will find yourself working with an ease and speed you have never known.

And your pictures will sing with a new quality. Taken by the light of day or the flame of a candle, they will exhibit the richness of detail, the dramatic resolution and realism which have made the f/1.4 Nikkor one of the most talked-about lenses of our time.

NIKON F with 58mm AUTO-NIKKOR f/1.4.....\$375.00
NIKON F with 50mm AUTO-NIKKOR f/2 329.50

At your Franchised Nikon Dealer, or write to Dept. PS-2
NIKON INCORPORATED, 111 Fifth Ave., New York 3, N.Y.
In Canada: Anglophoto Ltd., Montreal, P. Q.

Q. Why repair an old place? Why not sell and build new quarters?

A. All aspects of PSA Headquarters accommodations have been carefully considered by the Board of Directors. These men are able executives, successful in their own business—some highly successful. We put them in office and we should trust them to get the facts and make decisions. A PSAer in New York, Dallas, Seattle or Boston can not make this type of local evaluation any more than a physician can diagnose a case a thousand miles away.

The Board of Directors has decided after careful consideration that because of location, basic soundness of the present building and cost of new construction, and other relevant facts, the interests of the Society will be served best by rehabilitating. Should new or different facts develop within the next year or so, we should assume that they will receive adequate consideration from the directors.

Q. What about camera clubs? Are they giving separately from individual members?

A. Yes, and with real enthusiasm. A number of clubs and councils of clubs have given \$100-150 and many small clubs from all over the nation have sent in \$10-25 each. We hope that **every** club will take similar action in the next thirty days.

Q. What method do the clubs use?

A. The president or the PSA representative asks the Board of Directors of the club or council to give a recommended amount from the treasury. A check is then drawn and sent to Headquarters. Sometimes the membership in a meeting approves the gift by voice vote. In a few cases a special collection was taken up but we would not like that to interfere with the members' personal contributions. To make our quota we need the help of clubs and of individual members.

Q. How is the drive being conducted? Do you have professional fund raisers whose fee will take a big bite out of our contributions?

A. No. We have no professional fund raisers and no one is being paid for his work on the drive. Members of the Committee and officers are contributing their time and business experience (in addition to their own cash contributions) in order to raise this money for PSA as economically as possible. The only expenses are those incidental to the appeal, postage, printing, etc. Hence, the prompter the response from members and clubs the lower such expenses will be.

Q. Can we expect any contributions from manufacturers and distributors of photographic equipment?

A. Yes, but some of the best known names already contribute regularly to the support of PSA and we do not want to wear out our welcome. Some contributions from industry have already been received, **including some from abroad**. We have plans to cultivate this potential source but first we must show that our own membership will give.

If any PSA member or Journal reader owns a manufacturing or distributing company and wishes

to make a contribution on behalf of his firm it will be more than welcome. Or if he is in a position to bring the matter to the attention of top management in a proper and discreet manner his efforts will be appreciated.

Q. Don't we all owe some debt to PSA, directly or indirectly?

A. There is much to support such a view. PSA has advanced the cause of photography, assisted camera clubs in many ways, helped individuals both directly and through the clubs. By passing on to others photographic "know how" and by bringing many photographers together, PSA has enriched the lives of thousands of people and stimulated the sale of cameras, lenses and accessories.

Q. Where should my check be sent?

A. To Headquarters Improvement Fund, Photographic Society of America, 2005 Walnut Street, Philadelphia 3, Pa.

Q. When should I send it in?

A. May we suggest—now?

The above questions are representative of those we have heard. If there are others we shall try to answer them.

Your able and hard working president, Bob Goldman, is enthusiastically behind this drive and is anxious to achieve the set goal as soon as possible. Will you lend a hand to make his job (and ours) a little easier? May we suggest that you try to recall what photography has done for you and then be half as generous? And finally, would it be out of order to observe that procrastination never made a print, bound a slide, or rehabilitated a decrepit building?

EDITOR'S NOTE: One of the most interesting donations for the Headquarters Fund came with a letter from Executive Vice-President Nestor Barrett, FPSA. Nestor has been a member of the San Jose CC for years. The Club was founded in 1931 and immediately became a member of the Associated Camera Clubs of America. Thus it became a charter member of PSA and has retained that membership.

Recently, for a variety of reasons, the membership of the club decided to disband. Membership had dwindled, other clubs in the area had become popular and grown. At their last meeting in December, 1959 the remaining members voted to disband; to give their library to the San Jose Public Library; to sell the few items of equipment the club owned; pay off all debts and donate any balance remaining in the treasury to the PSA Headquarters Fund.

The San Jose CC was formed by Frank M. Beckett, a well-known exhibitor during the 1930's; Robert Couchman, a newspaper man, who only remained in the club for a short time; and Nestor Barrett. Beckett died during 1959 and his passing might have been the reason for the club breaking up. During the 29 years San Jose sponsored many outstanding lecturers on photography, including Ansel Adams, Edward Weston, Sigismund Blumann, George Allen Young and Dr. William H. Wright of Lick Observatory, pioneer of Infra-Red photography.

It is sad to see the passing of a fine club which made many contributions to pictorial photography, but it is at the same time heartening to know that the members have the vision to aid those who come behind them.—db.

Leica the only camera invited to the party

This year is the 35th anniversary of 35mm photography, which is the same thing as saying it's the 35th anniversary of Leica, the camera that started it all. The very first Leicas were masterpieces that revolutionized photography. Most of these early Leicas are still in top condition—evidence of the rugged precision and unwavering quality built into every Leica.

Today's modern Leica—M-3 or M-2—embodies this same traditional Leica craftsmanship, plus an array of automatic features that make it easier than ever to benefit fully from the most important feature of all—Leica quality.

You'll be surprised how easily you can harness Leica quality, how quickly it will make its presence felt in your pictures. See the Leica M-3 and M-2 today at your franchised Leica dealer.

35339

Leica M-3 and Leica M-2 both feature automatic, multiple-frame viewfinders with automatic parallax compensation; both are available with the new 50mm Dual-Range Summicron f/2 lens (focusing and parallax compensation down to 19"). Leica M-3 with Dual-Range Summicron, \$438; the new Leica M-2 with Dual-Range Summicron, \$384. Illustrated coupled exposure meter is optional. Interchangeable Leitz lenses are available in focal lengths from 21mm to 400mm.

Wishing Won't Make It So

You Can Enter Exhibitions... And Win!

By John Fish, FPSA

All Photographs by the Author

While present-day photography has been accepted as an adjunct to modern living, with practically everyone engaged in picturetaking, too few camera hobbyists devote the time and energy needed to meet salon requirements. Yet, photography has now joined the fine arts, and the making of beautiful pictures to send around to the world's exhibitions is a pastime which offers real satisfaction.

Traditional Photography

Beauty abounds around us and the manner in which it is pictured depends entirely on each individual photographer's temperament . . . and his capacity as a potential artist. Because no two people see the same meaning or have the same reaction, it is indeed fortunate that the sphere of exhibition photography is so wide that everyone has the opportunity to express himself as he desires.

Among today's traditionalists are many whose work exhibits a high degree of technical excellence, superbly-balanced composition, and pleasing tone harmony. In the best examples, the true sincerity of treatment reflects the personality and the creative power of the camera artist.

In contrast, among those who pursue traditional photography, there are a few who are nervous about trying new ideas. They seem content with practicing artistic conservatism. Fortunately, they are in the minority—oftentimes are merely in an early phase in the development of a truly creative imagination!

Contemporary and Experimental

Contemporary photography, for the most part, shuns the obvious . . . the cliché of the well-worn pattern. It is a visual language which offers the modern photographer unlimited opportunities to exercise his own special way of seeing—as influenced by his environment, experiences and attitudes.

Many of today's experimentalists maintain that a good photograph should be the result of an emotion, for feeling is the basis of our lives. Sentiment when allied with firstclass technique, is a great potential power.

The photographer who is venturesome about his medium and both bold and curious, yet unhampered with inhibitions about breaking the "rules," will certainly experience many failures and disappointments! But if he has an inventive mind, and good technique at his command, his experiments in modern photographic art will most likely produce occasionally glorious and wonderful results!

As part of an avant-garde, he may even from time to time be subjected to censure, as he searches for a fresh, spontaneous impression, creative and new. But if others ask him why he made a certain picture—and even if he fumbles about and finally comes forth with a not too convincing "Because I like it!"—he should not feel that this simple argument has betrayed his masterpiece. Aesthetics are oftentimes indefinable!

Peek-A-Boo

Nature Photographs

Entries in nature salons usually include photographs of birds, wild flowers and plants, animals, geological specimens or formations, reptiles, eggs, et cetera.

Judges also place emphasis on clarity of detail, technique, and composition.

Pictures of pets, formal flower arrangements, museum groups or animals, human environmental conditions, or geographical photographs that are more landscape than actual studies of formations, are seldom considered acceptable nature subjects.

The Modern Salon . . .

Is it open to variety, and fresh, new, ideas?

Photography as a creative medium of artistic expression has come a long way in the last few years. While it may seem to the exhibitor that some jury panels appear to be walled in by conservatism, fortunately for the advance of photo art the modern judges no longer blink their eyes in an attempt to sharpen an out-of-focus area of an emotion-and-mood-conveying photograph.

For the most part, salon judges are skillfully and conscientiously selected by salon committees for their

Autumn
Sunburst

special ability to uphold standards of high quality and to reward originality. These judges are usually broad-minded individuals who very objectively study each submitted photograph on its own merit, not allowing personal prejudices to influence their decisions.

Today there is increased recognition of the difficult-to-define human-interest factor for its value in pictorial photography. And, more than ever before, there is an awareness among photographic judges and salon committees of photography's increased stature . . . it has grown from purely a reproduction medium into an accepted art form. In today's exhibitions there is every evidence that an increasing number of salons are placing greater emphasis on the trends of modern photography . . . acknowledging the valuable element of human interest . . . giving credit to forceful photographs which communicate and express ideas.

For these reasons, the camera enthusiast who wishes to experiment with contemporary photography should not be too concerned about the reaction of the salon juries. If his photographs—and the ideas which they communicate—are good, he will certainly find judging panels which will be receptive to his work. Perhaps not every time—but those who have pioneered have always had somewhat of a cross to bear as the price of eventual fame!

How A Salon Works . . .

While many camera club members dream about

the day when their photographic accomplishments might be shown in an international exhibition of photo art—most never enter a salon! The word "salon"—just what does it mean? Well, certainly nothing that should discourage any amateur who thinks of himself as "advanced."

Salons are photographic exhibitions which, for the most part, are conducted by a camera club, or possibly an organization of enthusiastic photographers interested in advancing photography as a creative art medium.

This is accomplished, usually, by arranging for an art gallery or museum to display the photographs accepted by a jury usually consisting of three judges. While consistent exhibitors are normally kept on a salon's mailing list to receive each year's entry form, others who may be interested in submitting their work for the first time can most likely find an announcement of current salons in the *PSA Journal* and in monthly photographic periodicals. A postal-card request will bring the necessary entry form and full particulars. In this manner, salons solicit entries from everyone—regardless of nationality, ability, or geographical location.

As the photographs, slides and/or prints, come into the salon's headquarters from all over the world, members of the committee open the packages and take care of arrangements for judging, catalog printing, and the exhibition itself. The cost to the contributor is only a dollar or two, plus the postage needed to mail the photographs. In return, whether successful

or not, the contributor receives a catalog of the exhibition. Sometimes it alone is worth much more than the small fee for entry.

And if his work is accepted by the judges, there are special acceptance stickers for each successful photo. After the conclusion of the salon all entries are returned, or they may be forwarded directly to another salon if the entrant requests.

Like art exhibits in other mediums, there are no cash "prizes," but some salons may offer the opportunity of winning beautiful medals for truly outstanding work.

The Requisites Of A Salon Photograph

Anyone preparing pictures for submission to a salon should keep the following points in mind if their goal is to gain acceptance:

1. The picture, unless purely a portrayal of unusual beauty, should possess a comprehensible idea.
2. It should have wide appeal, or be strongly compelling in a logically consistent manner, rather than capitalize on mere freakishness.
3. It should be technically excellent.
4. Subject matter should be dominant, but simple enough to carry well when viewed briefly and at a distance.
5. Prints should be mounted on 16 x 20-inch, light-toned mounting boards, titled and signed simply, with evidence of good taste.

What About Composition?

While a knowledge of basic composition and balance is of primary importance to the beginning photographer, too many are confused about the application of the so-called "rules" of pictorial composition. In reality, most good pictures—that is, pictures that truthfully express what the artist saw and felt—precede these "rules."

Another way to say it is, that if the picture has unity, the composition is good, but if a photograph does not hang together, the composition is bad. Edward Weston is quoted somewhere as having said: "Composition is nothing more than effective arrangement of your subject matter. Forget composition, then, and concentrate on your subject matter."

Judging Photographs

When pictures are sent to a salon, it is only natural that the maker wants acceptances. But, for the most part, the primary interest is really an evaluation of one's efforts . . . to see how they compare with others. So, if a jury votes "IN!" on a picture, it is obviously a good one! Yet the rejection of a photograph by any single jury is not too significant as a measure of the picture's worth.

During judging of an international salon, there are usually a modest number of photographs which gain immediate acceptance. At the other end of the scale, there is generally a large portion of pictures which

End of Summer

Sunset over Pemaquid

Travel In The Past

By Patrick J. Smith

Making travel pictures with that added touch . . . the "gimmick" that gives coherence, that ties the scenes together into a unified whole . . . in this case, history.

The cry of Dolores ricocheted from the mountains into the valleys of the revolution country in Mexico.

Father Hidalgo, from his little parish church in Dolores, had not had time to prepare his people to wrest themselves free of the Spanish vassalage. But armed with clubs, stones and some few guns, the peasants rushed to Hidalgo at the first signal of revolt.

The scenes of their triumphs and defeats afford pictures of beauty and of great historic interest.

To follow Hidalgo and his partisans from his parish town to the pike hooks on the Alhondiga in Guajuato, where his head and those of three of his followers were hung, will not only make for an interesting vacation any time of year but will lead through some of the most picturesque areas of photogenic Mexico. Not alone will you find modernity, but there will be pre-conquest scenes and much seventeenth and eighteenth century Spanish architecture.

The small native villages have changed little through the centuries since the conquest; the cities and larger towns not only have a Spanish flavor but modern living has made its mark; in short the revolution country is one of contrasts which sharpen your eye. Any photographer can move in a moment from the sixteenth to the twentieth century and he has done little more than walk across the street.

This particular area of contrasts is reached easiest from Mexico City. The entire revolution country lies northwest of the Capitol and from Guadalajara eastward.

The first point of interest is Toluca, especially challenging on Friday which is market day. An entire square and all surrounding streets are set aside for the vendors who tramp miles bringing their wares to market. Long rows of pottery line one section. Here the women, in their multi-colored costumes, squat and clap thin their tortilla dough as though lackadaisically applauding. In another section there will be displayed colorful serapes and rebozos. Here the women may be sitting on their haunches munching tacos filled with succulent pork and a rich brown hot sauce. Turn to the right or left and you are in the flower mart. Common and exotic varieties abound. Orchids, woven with other flowers into too big corsages are offered for less than a peso.

Each street overflows with merchandise for sale; baskets woven from straw or thin wood strips are stacked higher than the vendor can reach; piles of oranges, yellow as an October moon, lie beside heaps of limes, on the street; vegetables, transported by burro, are for sale at nominal prices. Everything that a family may want, from raw sugar cane to a yoke of oxen, can be found.

I remember watching an Indian woman with six chickens, tied head down to her waist band, bargain with a customer for one of her hens. She asked seven pesos. Her customer offered five. The conversation was rapid, in fact, too much so for an ear untutored in Spanish. After considerable conversation both removed their sombrero-like straw hats and the bargain was closed for six pesos twenty centavos. I bargained for pictures but five pesos did not persuade her. I have been told that many of the Indians believe that if their pictures are lost or destroyed, evil will befall the subject.

After you have threaded your way through the goods-laden streets you are on your way to Morelia, capitol of the State of Michoacan. Morelia at the time of the revolution was known as Valladolid. The name was changed in 1828 in honor of its native son José Mariá Morelos, who played an important part in the uprising.

Aqueduct—Morelia

Harbor Haze

goes into the discard pile almost without hesitation. The makers of these are evidently in complete ignorance of the qualities which make up a good photograph. They can benefit by studying the work of others as it appears on exhibition and by learning from the reproductions in salon catalogs.

Between these two groups, there is always a large quantity of work which shows good technique, interesting subject matter handled with imagination, or some other important quality which requires serious consideration by the judges. Any of these photographs would be good enough to interest one jury, while they fail with another. So—make your pictures for the love of picturemaking, and don't worry unduly about an occasional reject—it might just possibly prove to be a winner next time out!

Seeing With Feeling

By Kenneth F. Blackie

Don't trip that shutter, look again and again. Is what you are looking at exactly what you want? Is it you that is taking this picture, or is it an image in your mind of something that you have seen before? It is true that you will be influenced by the work of many others before you, that the image in your mind of what you want may unconsciously be the result of the study of the products of many other photographers, but from that seed may grow your creative thought of the kind of picture that you wish to produce. Are you seeing with *your* feelings, is this the view that you want to keep? Put the camera away, gather up your gadgets and walk around and study and look again. Do you see something that others have missed? Is this the best time of the day? Be as a child or a blind person who suddenly can see without inhibitions, prejudice or imitation. See it *your* way, the way *you* like it; see it until it becomes a part of you and others will know and say, "That is *his* picture."

Sure, you have a meter, your pictures will be in the class of technical perfection, but is it you that is there? Are you in it? Are your feelings in it? You have heard many a camera carrier say, "I took three rolls today," and you know that after the slides are returned he will paw through them trying to find one or two that may be good enough to "send" out.

Why not say, "I took three pictures today." Put your camera away, you know what it can do, you know that the lens is the best that you can buy, but until it

is pointed in the right direction at the right time, it is a useless thing. It is you who are going to take that picture, it is going to be yours alone. The moment that you see, regardless of where or when is going to be a part of you. In the teeming city with its expensive towers and crowded tenements, can you bring to us the beauty that is there, the rhythm of hurry, of success or failure? Can you find the pleasure, the joy, the comfort that many do in the crowds, in the hurry of the taxis, of the jam of noise and orderly confusion? Can you find there a sense of well being? Or must you take us to the byways, by the never quiet sea, the busy stream, the peaceful serenity of the countryside with a backdrop of jumbled snow-capped heights? Or can you show the naked beauty of the desert, soft and yielding as the foam of the sea yet hard and killing as the impact of a bullet?

Now look through the viewer, keep wondering, watching and waiting for that moment that you wish to find. Partly because of your camera you have an awareness of the world around you, you feel what you see, you project yourself into the scene and become a part of it, and what you see is your interpretation of that moment of life. You have become a Good Samaritan as you pass down the road in helping others to see the little corners of life. And now as you show your pictures you can say, "This is the way *I* saw it, this is the way it looks to *me*."

Island of Janitzio and statue of Morelos

There are many important buildings in Morelia. The principal one is the cathedral which was begun in 1640 and completed about one hundred years later. Early in the morning and late in the afternoon the shadows on the facades of the bell towers bring out in sharp relief the stone carvings. The interior bespeaks the splendor which was once New Spain.

Not far from the cathedral is a water system. In early colonial times a stone aqueduct was built to bring mountain water into the City. Miles and miles of the high stone arches of the aqueduct cast an intriguing pattern of rounded shadows as the sun spins from mountain to mountain across the 6200 feet high plateau on which sits Morelia and its clean, tree-and flower-lined streets.

A modern touch is given Morelia by its factories where shawls, cotton goods, soap, cigars and cigarettes are manufactured. Good hotel accommodations are available on the Zocalo near the cathedral.

A day and a half in Morelia will permit ample time for sightseeing and photographs. But you will like Morelia, and if you are not short of vacation days you'll stay longer. In fact, you may wonder why you don't live there.

By noon, if you leave Morelia on schedule, you should be on your way to Patzcuaro. It's a relatively short drive, perhaps about fifty miles, on an excellent road. Enroute, and about twenty-five miles from Morelia, is Quiroga where the road to Patzcuaro turns left from the main Morelia-Guadalajara highway. Quiroga is a must stop of at least an hour for two reasons; first the shops for lacquerware, and second, the chicharrones.

Lacquerware is made in the area. Most anything that can be made of wood is manufactured and much of it is lacquered. There are trays: oval, square, rectangular and oblong; decorated with hand-painted birds, flowers, fruits and local scenes. Other items of various shapes and sizes, brilliantly decorated, are also for sale.

After you have invested in lacquerware and wondered just how that long tray can be packed so that the designs will not be marred, you are ready for chicharrones. They are pairs of shortened spareribs cooked in deep fat until quite crisp. As they are lifted from the kettle, the hot fat and meat crackle as the grease continues to simmer. The aroma of fried pork spreads like incense. A flick of salt, a dash of hot sauce and a quick twist of a napkin and you are handed, for a few centavos, as fine a dainty as any fleshpot ever produced. The brown crusted ribs are a delight to your eye, the tang of the sauce a pleasure to your tongue and the aroma a perfume not to be forgotten.

When you have done with your chicharrones, except as you will long remember them, you drive to Patzcuaro and, of course, the Hotel Don Vasco. Lake Patzcuaro, after which the town is named, will come into view, nestled among the volcanic mountains, some little time before you reach the hotel. You will be tempted to rush to the waterfront. There will be plenty of time tomorrow and much more activity when, with their dugout canoes, the Tarascan Indians bring their wares to market.

After a leisurely dinner at the Don Vasco, served by Indian girls in native dress, you and the other guests will gather on the porch to watch some of the villagers do the dance of the old men. For pictures of the costumes and masks of the dancers, flash will be necessary because the sun will have long ago dived below the western mountains. After the dance, a stroll in the moonlight among the shadows of the orange, lime and grapefruit trees will bring to your ears the cacophony of insect and animal life. If you walk to the water front to see the shimmer of moonbeams on the wavelets like sprinkles of silver, you will hear the rustle of water animals among the reeds and an occasional splash of a fish as he strikes at an insect near the surface. Then to bed to await tomorrow.

With the new day comes the visit to Lake Patzcuaro for pictures. If you are early enough, shots of the women hoisting to their backs enormous loads from the dugouts will be most interesting, particularly if you take color shots of their costumes. A motor launch trip to the fisherman's island of Janitzio is a must. The nets drying in the sun, the red tiled, quaint houses on each side of the cobblestone steps that lead three hundred or more feet to the hilltop of the island turn time back two centuries. There are challenging pictures at every step: a mother bathing her child in the lake, near naked children begging a *cinco* as you stop to watch a net mender.

As you climb the walk, a pig slithers by, looking for scraps dropped by a careless eater. A skinny dog rises slowly from his place in the sun to sniff you only to return to his bed when he has made sure you do not belong. Two or three chickens hurry out of your path as you climb the cobbles to the statue of Morelos on the topmost part.

When you have rested from the first climb you may want to make the second up the winding stairway inside the statue which leads to the head. Along the

wall as you ascend are murals by Orozco. You see the history of the country in vivid colors as interpreted by one of the great artists of Mexico.

From the base of the statue one can view the many little islands that dot the waterscape like anthills on a prairie. The descent is much less wearying than the climb. Once again seated in your launch you will tour around Janitzo and take pictures of the butterfly net fishermen. There will be no trouble finding them if you have a camera. I have a suspicion these men receive more income from posing than from fishing. On one of our recent trips I wanted movies of two or three operating their butterfly nets. Despite my protestations that I wanted only three, the waterfront looked like a scene from an extravaganza, or a Venetian carnival. I must say though they were co-operative except for their serious faces. But I suppose dipping a living from Lake Patzcuaro is a solemn business.

On the flatland surrounding about one half of the lake is the town of Patzcuaro. While small, it is beautiful and charming. During August there is a school at the *Calegio de Patzcuaro*. An intensive course on Mexican culture is offered which covers the Pre-Hispanic, colonial and current periods. A team of some of the best teachers in Mexico lecture in English.

The tuition is eighty dollars and board and room ranges from four dollars to twelve dollars a person a day. The lectures are given in a two weeks period. If you choose you may spend a third week on an excursion by bus throughout the countryside and ending at Guadalajara.

You will leave Patzcuaro with regrets. But as you move toward Guadalajara through the volcanic terrain the new scenes will dim your memory of the old.

On your way to Guadalajara, if you have time, you will enjoy another side trip. This one to Uruapan which is the town nearest Paracutin, the volcano which erupted in a cornfield. Paracutin is no longer active, but a view of the mountainous lava which spewed forth such a short while ago may be of interest. Near the outer edge of the flow, the twin spires of a church stand like sentinels; all that remains, above the igneous rock, to mark what was once a peaceful village. The ash from the volcano has covered the area with a black coat; the trees are leafless and save for guides and a few vendors, life has gone from the immediate vicinity.

From the bleakness of Paracutin to the warmth and geniality of Guadalajara is only a few miles. All that has been said about the second largest city in Mexico is hardly enough. This entire article could be devoted to Guadalajara and the full story be only begun. The surrounding countryside and the city itself afford you a look into pre-conquest times, and as well the days of the Conquistadores. Needless to add that Guadalajara is as modern as tomorrow but has preserved much of its antiquity. Without doubt you will want more time for Guadalajara than you have allotted, but once having been there you will return.

If, however, you intend to visit other places of interest in the revolution country, and do not have unlimited time, you will be on your way to Queretaro still longing for the city of music and gaiety. But again,

Street of the Kiss

the sights to be viewed will, as you see them, take away the regrets of moving.

Queretaro is in the state of the same name. Here again, you see the old world; the long stone aqueduct which poured the mountain water into the earthen jugs of the townswomen and the marks of the sixteenth century.

In the canyons near Queretaro many of the natives make a good living prospecting for opals, aquamarines and many other semi-precious stones. The stones are cut and polished by artisans in the town and are available cut or uncut at nominal prices. If you choose unpolished stones, the shopkeeper with his basket of semi-precious gems will bring you a bowl of water into which the stones are dipped in order to give you a fair idea of what they would look like if polished.

If you want a day of prospecting, a guide can be had for a few pesos. Prospecting can be rewarding, but walking through the canyons, wading in the streams, cracking open rocks with a geologist's hammer is indeed much more strenuous than snapping pictures. There is a picture or two in the canyons but it's my feeling that those canyons on film are much alike. Moreover, after one trip you will conclude that the prices charged for the polished stones, even those set in jewelry, are indeed reasonable.

Whether or not you prospect, you will want to visit the chapel erected on the spot where Maximilian was executed. Such a visit and you will reflect on what might have been, had Napoleon III answered the entreaties of Carlotta and given aid to his protege against the popular Juarez. Instead of standing before

Pepila

the executioners on Terra de las Campana between his two generals, the brilliant Miramón and the devoutly religious Indian Mejia, he might have reigned from a golden throne high on Chapultepec hill in Mexico City beside his beloved and loyal Carlotta.

Reflections on the phantom emperor will occupy your mind from Queretaro to your next overnight stop in Guanajuato. Along the way there are tempting scenes for pictorial and nature shots.

Among the interesting places enroute is Marfil (Ivory Town). Once 50,000 people lived here, now it is a ghost town. Once it had a gold mine, now nothing. But its worth a visit for its historical interest.

The gold in Marfil was not as lasting as the silver in Guanajuato. The natives say that once upon a time the mines in Guanajuato produced one half of all the silver mined in the world. The mine, La Valenciana, has produced since earliest times and is still profitably operated. They say that the miners who had come from distant Spain grew homesick. They decided to cook Paella a la Valenciana such as they had eaten in their homes in Valencia, Spain. The dish is made of shrimp, chicken, rice and seven or eight other ingredients simmered in a deep hole previously made hot by a big fire, until all the flavors have blended. In preparing the hole in Guanajuato the miners struck the

silver vein which became La Valenciana. They will tell you that after the strike the feast was continued by the new millionaires.

The mine, like all else in Guanajuato, can be reached only after a steep climb along narrow but picturesque streets. One of the narrowest is Calle de Beso—Street of The Kiss. This street is a favorite of couples because it is so narrow two people cannot pass except sideways, thus lovers when passing make a kiss inevitable.

In Guanajuato you have a choice of two good hotels. The Orosco which sits at the foot of one mountain, and the Santa Cecilia halfway to the top of another. The Santa Cecilia was once the Hacienda San Javier. It is castle-like but the modern rooms around the courtyard leave nothing to be desired.

After a sumptuous, leisurely 8:30 dinner, a crackling log fire will be built in the spacious fireplace to take away the chill of the mountain air which began to creep down as the sun left. After a night under blankets, even in midsummer, you will climb, but preferably drive, from the Santa Cecilia to the top of the mountain and the Church of San Francisco which was begun in the middle of the seventeenth century.

Long ago a miner, who had become rich, paved the street from his home to the church with silver in order that his daughter's wedding procession would not walk on the cobblestones. Needless to add, none of the silver remains.

From the church of San Francisco the next stop will perhaps be the Alhondiga; once a granary, then a Spanish fortress. Here the first battle of the revolution was won by the forces of Father Hidalgo. The Spanish had barricaded themselves in the building and each assault by the revolutionaries met with murderous fire. When the first encounter seemed lost, Pepila, an Indian follower of Hidalgo, carrying a slab rock as a shield against the Spanish gun fire, climbed to the Alhondiga and set fire to the massive wooden gates which forced the garrison to surrender. A painting of Pepila is in a niche in the main areaway of the building. On the opposite side of the city, proud and high on the mountainside, a huge stone statue of Pepila looks into the sun and beckons his comrades onward to the freedom fight.

From the stone platform in front of the statue, you can see almost all of Guanajuato. As the day peeps over the Sierra Madres the tops of the buildings catch the first golden glint. While the sun courses over the mountain tops the glow creeps downward, as though a toga were slowly slipped from the shoulders until each building stands bare in the refulgent light. By midmorning the statuettes on top of the front wall of the Teatro Juarez are sidelighted and appear almost alive. The townspeople saunter about their roles for the day and the entire atmosphere is one of restfulness and peace. Thus it is in Guanajuato!

It is, however, no more so than your next host town, San Miguel Allende. Here is a large American colony. Here is an excellent art school. Here is new beauty. It is named in honor of Allende (Ah-yeñ-deh) a lieutenant of Father Hidalgo.

The pictures which the many artists brush on can-

vas, sculp in stone or mold in clay, you can catch in color. Neither words can portray, nor pictures capture the serenity of the countryside. Only by being part of it can you feel it. After a day of picture taking in San Miguel, with evening will come a repose, deep inside you, that slips down like dusk on a summer's night.

You can spend hours in the Zocalo watching the changing pictures among the hewn stones on the cathedral tower. Each moment a new high light or new shadow. Each time you look the scene is different and you will have difficulty choosing among the many pictures you will take.

From San Miguel to Dolores is a side trip for a day if you start early. The sleepy town which cradled the revolution has changed little in the nearly a century and a half since the plaint of Dolores chorused into the valleys and the Spanish fetters began to break.

Such a tour of the revolution country will not alone be a pleasurable and inexpensive one, but it will be rewarding as well. With your pictures you will relive one of the most enjoyable excursions ever taken. But most important of all—revolvemos—indeed you will return.

By way of a footnote: accurate travel information can be obtained from Petroleos Mexicanos, Avenue Juarez 89, P. O. Box 55 Bis. Mexico 1 D.F.

San Miguel

PSA Helps Clubs — *And You!*

By William F. Potter

December's "Is your Club Getting It's Share?" certainly will spark many ideas on PSA-Camera Club relationships. While, doubtless, a larger club may have a PSA representative free from other duties, smaller clubs will probably find it expedient for the regional representative (NECCC in our northeastern area) to handle PSA matters. Since this is a natural tie-in and one augments the other, the work is not too much extra burden.

Some clubs may discover members ignorant of PSA activities, even if they are affiliated as a club, and this may be the fault of the officers who handle the mail first and monopolize in-coming literature. This is the way Boston YMCA CC attempts to avoid such difficulty. We have a rubber stamp (donated by the member who works for such a firm) for the cover of all our

subscribed and donated periodicals. Our stamp reads:

Boston YMCA Camera Club
For membership circulation
Return in reasonable time

As an added reminder, variations on "Join PSA and have an exclusive copy" are written on tags attached to the Journal cover. We also used this device on magazines and books brought in by members, and we regularly encourage donations.

Recently, before two of our active members joined PSA, we included inserts in each Journal circulated among our membership on PSA advantages, ending with the slogan, "Join PSA." Now, we mention our PSA members on such inserts, referring queries to them, and this surprisingly includes the member re-

sponsible for the original insert—the writer.

PSA divisional bulletins—in our case, Color and Pictorial—are bound separately by the year, and pertinent articles noted on the cover—articles, like the CD's Photo-Essay columns by Jack Kenner, which bolster our coming Spring competition on our 4-6 slide Photo-Essayette. Next year, we hope to call for a Photo Essay with a minimum of 25 slides. This is part of a long-range plan and last season we had a competition of "Sequences" asking for 2-4 slides. This year, "Photo-Essayette", next year "Photo-Essay." Our members will be prepared through PSA!

Our PSA Camera Club division bulletins are bound, also, with items checked, especially those mentioning our club. Our members know whenever and wherever our club's name appears in print and must be encouraged by their officers' work. This rebounds frequently and activates more co-operation all around.

The rubber stamp goes on all these covers, plus a short summary of the services under each PSA division covered by the bulletin, with a capping admonition to "Join PSA."

Ideally, a club librarian should see all periodicals first, record them and make an effort to keep them circulating, especially offering them personally to members who did not indicate interest. The suggestion could be made for each member, returning literature, to offer it to another member. Occasionally try a word from the chair or in the current club bulletin to bring in material for another circulating round. The best eye-stopper we have is that tagging of pertinent articles on the covers (use gummed labels) and particularly articles featuring the club's current work.

One Journal, still circulating with us, is the January, 1959 issue on color. Why? Our club emphasizes color and this season the accent is on overlays, montages, etc.

Not only can individuals sponsor other individuals in PSA, and this receives a tremendous boost with the new \$1.00 credit card arrangement for the sponsor, but don't overlook the strong possibility of individuals or clubs sponsoring other clubs. Many smaller clubs not only face the demon ignorance but also find indifference a strong obstacle to effective and active work. PSA is a magic key and we have found visiting smaller and larger clubs stimulating to both organizations. Discussion on club administration and program arrangements naturally spring from a meeting of sympathetic minds. One of the most common questions asked is: "Where do you get your program ideas?" With explanations of regional and PSA affiliations and their benefits, the door is open.

Invariably a request for a reciprocal visit comes and maybe a bulletin exchange, a two-way compensation. Boston YMCA CC exchanges bulletins with six clubs, to a radius of 100 miles.

This bulletin exchange between local and regional clubs is productive in many ways: first, the exchange of program know-how stimulates another club's activity, it may have by-passed a suggestion with the usual excuse of "too much for us" or "old stuff." Exactly, what we did. The PSA Slide Set Directory was ignored for years and when it was brought up in meet-

ing a big silent yawn rippled down the room and nearly swamped the program chairman. But some PC's are apparently indestructible for, when the collection was started, the membership jumped on the bandwagon to help roll it on and in. All right, maybe we won't have too many calls for our "Historical and Modern Boston" set, but no one can deny the fun and camaraderie we generated in making this set a cohesive introduction to our town.

The lesson here is that many times an idea used by another club requires only some one to pick up the relay ball.

Through bulletin exchange, one club might learn of the new speakers appearing around the local clubs. While, justifiably, a club program man may not share a speaker-protégé before his club's program, many new speakers are only too delighted to repeat their fledgling talks. Here, the silent influence of PSA is felt. The right encouragement, given by a program man in suggesting a program to a local exhibitor or winner, has started many an effective speaker on his path. It requires a discerning eye, maybe, but aren't we all exhibitionists one way or another?

Most amateur photographers, who have demonstrated mastery over some particular phase of photography, are pleased to attempt a slide program, many times seeking advice as the idea develops. The wise program man is diplomatic, often implanting the idea so casually that the to-be speaker imagines he thought about it first!

New programs need tryouts and polishing and clubs seeking speakers should remember this strong argument. Another point to remember is that experienced speakers with programs already gathered know an occasional airing is necessary to determine whether parts should be retained, discarded or replaced. A long memory helps here and bulletin files can be helpful in seeking out new-old speakers.

Like the tack we are working on now. One of our members remembered an old meeting she attended years ago, when a local dealer gave a talk on the "Care and Repair of Cameras." Presto, the spark flamed in the program chairman's busy mind. A discreet inquiry showed the program had not been given since then, another query by letter—phrased as an ah-me recollection—brought an answer that maybe the talk could be brought up to date, so please contact me again. As some of the boys might say, you have to work all the angles but PSA lubrication makes many angles curve!

So, your club treasury is at an all-time low? Don't let that stop you from having speakers. Often, local speakers who can demand and get payment from affluent clubs will be quite sympathetic with your problem. Be absolutely frank. Write your letter simply and honestly "PSA-affiliated club would appreciate hearing Local PSA-man." Just the enclosure of a return, stamped envelope indicates your open-hearted and considerate approach.

The Boston YMCA CC, located in a community center with a low budget, has faced this many times. While the courtesy of a pre-program dinner is welcomed, often we have had to settle a parking ticket.

If you know the program man in another club, don't be timid about passing on names and programs you have used. You may do both the other club and the speaker a favor. Keep it confidential, *a la entré nous*, but report the personality quirks to be faced. Some speakers like a tremendous buildup with all publicity possibilities covered to obtain the largest audiences. For these, newspapers, radio and poster are milk and honey. Bigger audiences? Why not invite whole PSA clubs nearby, with the approval of the speaker, of course. They would be thrilled to come. On these evenings, feature the speaker over the club's name.

For the more intimate speaker, whose personality shines best in the smaller rooms with the audience under 40-50, tone the publicity by emphasizing the club first and the speaker as contributing to the evening's program. Use this type of evening for guests of members.

In all cases of generous speakers, who donate their time and energy, do not neglect the flattery of remembering their photographic conquests, the PSA honors, their recent work, and so on. The would-be guest speaker is only too glad to furnish such facts and, with the right suggestion, may be willing to incorporate an appeal for club and PSA membership into the talk. Again, let him formulate your idea for you. How? One way is to open, "Do you think it is wise to . . . ?"

PSA members radiate a common psychology of share the photographic wealth, and this writer has never received a negative reply without satisfactory explanation. Another reason for club affiliation with PSA.

Don't forget the reminder to the speaker, another consideration which will place any club on the "must" list of that speaker's future programs. Our Boston YMCA CC bi-monthly bulletin "BY-PHOTO" is sent to all listed speakers of that two month period, and even to those speakers to come if the bulletin has a mention. Sometimes, we send current bulletins to unmentioned speakers to come, regardless. On our postals which go out for individual meetings, two lines at the bottom carry a "To Come" notice which is not always the next meeting but the first program to come with a speaker. Yes, we send cards to that speaker and even others.

One of our October speakers from another club—a case of a dormant program, too!—made it a point in his talk to reveal that he had received three such cards, plus the bulletin, besides the preliminary correspondence arranging the meeting. He said: "No speaker could ignore such a barrage. Even my wife told me your club must want me not only badly but also in anticipation!" Wonder why the program man felt so good that evening?

Not too much extra work for the return, is it?

Show the PSA Journal, divisional bulletins and other papers to other clubs, for these are the keys to wider friendship and a spread of amateur photography. The Camera Club Guides are natural eye-openers to the non-affiliated club, whose program chairman may struggle valiantly against parochial ignorance and laziness. "How to Run a Live Camera Club," issued

by the Audio Visual Service of Eastman Kodak, should be required reading for all camera club officers, and this writer wishes more copies were available to clubs, even at a price. Our one copy is well worn! (*Jack Fish please note!*)

The best of program ideas often have a tendency to dissipate at evening's end. We have found it valuable to get plenty of informative literature in advance for distribution. Going on a field trip? Get several maps of the area, historical and photogenic spots and suggestions for off-the-pavement touring. States and Provinces all have fine Department of Commerce people putting out loads of material. The addresses are published yearly in *Popular Photography* in the Spring.

Still need more help? A letter to a PSA club in the vicinity will be answered and sometimes followed up with a request to visit them. The Boston YMCA CC enjoyed the guide service of the Martha's Vineyard CC on a memorable week-end.

Often members will mimeograph important photographic lessons for club distribution. We have reproduced articles from the PSA Journal more than once. Since we are stressing manipulation of the transparency beyond exposure this year, copies of articles on this subject have found willing and grateful receivers. Remember: credit lines to author and publications.

Even with such largesse, which probably won't cost your treasury a penny, don't neglect the campaign for PSA. Each PSA member should be encouraged by the representative to enjoy active participation; and often, the more interested member has to push a little on it! With a little stimulation, other PSAers will back the campaign with you. One PSA pusher can accomplish much, to be sure, but think of what a steamroller of two or more interested and active PSAers can do.

Schedule part of a meeting regularly to promoting PSA, even if it is little more than mentioning with more than usual stress some pertinent article in the Journal. Review the divisional services enjoyed by the club, so that members will realize what enormous help the club receives from its affiliation. Translate the club services down to the benefits for the individuals and you are bound to generate some interest. Point out the individual services PSA members enjoy. Of course, have some extra membership blanks on hand. PSA affiliation for clubs is one budget expense which should be, and is with us at Boston YMCA CC, top priority!

Photography, as a minor creative art, too often is found strongest in a subjective nature, an individual who may wish to cradle his accomplishments in a white tower of his own. Smaller clubs may not be plagued with this artistic withdrawal, but it is a noticeable anti-social force in many clubs with wider memberships. This requires a different frontal attack than against ignorance or indifference, for the talented person generally is aware of the benefits of a wider knowledge as he may assimilate easier and quicker than others. The attack on such problems is best made through another talented photographer, who has conquered his natural artistic tendency to solitude and learned to channel it for the greater good.

Obituaries

Dr. Max Thorek, Hon. PSA, FPSA

Dr. Max, internationally famed surgeon, author of several books, founder of the International College of Surgeons, aged 79 years, 56 of them spent as a physician and surgeon in Chicago, first president of PSA, active in founding the Society, active for years as an exhibitor, with widespread interests in the theater and the arts. . . . Dr. Max is dead.

If you read Woody Woodburn's history of PSA in the Journal at the time of the 25th Anniversary Convention in 1959, you'll recall how Dr. Max was honored at a meeting of the ACCA group in Newark, N. J. on his return from a trip to England, and how he told them of his visit to the Royal and challenged them to turn the Associated Camera Clubs of America into a larger service group by shifting the emphasis from clubs to individual members. After much conferring back and forth, including the tossing around of names for the enlarged Society, PSA was formalized and incorporated in 1934. The corporate office was at Dr. Thorek's address for many years.

The various officer jobs were spread among those who had worked on the new idea, with Dr. Max as first president of the new PSA and Lou Bucher, who had originated the ACCA 15 years prior, as first secretary.

There have been many mutations and much growth since then, but the founding fathers had laid a good foundation.

Dr. Thorek was an artist. He appreciated art in its many forms. He used photography to express his own creative talents and was an acknowledged leader in the paper negative process which was so popular in the 1930s. He was a prolific exhibitor and landed near the top of AP's Who's Who list nearly every year. He submitted such fine prints that he hit "all four" in almost every salon in the world.

He was actively interested in photography until his death but was no longer the intensive exhibitor of 30 years ago.

He is survived by his wife Fannie and a son, Dr. Philip, also a Chicago surgeon.

John G. Capstaff, Hon. FPSA

John G. Capstaff, 80, Cornerstone Member, scientist, inventor, died in his sleep at his retirement home in San Diego, Calif.

A quiet man, unassuming and retiring, he was responsible for many important developments in the photographic art and was honored for his inventions by such diverse bodies as PSA, NAM, the Royal, the Society of Motion Picture Engineers and the Academy of Motion Picture Arts and Sciences.

He was associated with Dr. C. E. K. Mees in England and followed Dr. Mees to the Kodak Research Lab in Rochester in 1912. He took charge of filter production and related experimental work.

In 1914 he worked out a two-color subtractive process (named Kodachrome) and

Dr. Max Thorek, Hon. PSA, FPSA

in 1928 played an important part in developing the lenticular film "Kodacolor" process.

He is perhaps best known for his improvements in the reversal process which made possible the popularity of home movies. Prior to his work, the high cost of separate films for negative and positive, plus developing charges, had made home movies a luxury. The reversal process had been known but lack of controls rendered it almost useless for "amateur" use with the wide range of wrong exposures to be expected from snapshotters. He introduced the controlled second exposure and designed the special equipment which made it automatic.

He designed continuous film developing machines, printers and projectors and many special devices such as the Eastman Densitometer.

Perhaps few of you know him as the creator of the D-76 formula! At the time of his retirement in 1954 he had been devoting most of his time to professional color film for motion picture use.

Walter S. Meyers, Hon. PSA, APSA

Walter Meyers, 75, of Rochester, N. Y., passed away in Coronado, Calif. on Jan. 8.

He was a retired clothing manufacturer and had been a PSA member since 1935. He was a Cornerstone Member and was also a member of the Oval Table Society.

He was an avid pictorialist and exhibitor, specializing in portraits and scenics. He attended most of our conventions and was present at Louisville.

Rodney E. Prather

Rodney Prather of Mitchell, S. D., a member since 1948 died during December. He was a member of Color, Journalism, Nature, Pictorial, Stereo and Techniques Divisions and active in the portfolios.

MEMBERSHIP APPLICATION FORM

Chairman, PSA Membership Committee.
 2005 Walnut St., Philadelphia 3, Penna.

Date

Please enter my application for membership in PSA. I understand that membership, if granted, shall entitle me to the rights and privileges of participation in the general activities of the Society, to receive its official publications, and to participate in the special activities of as many "divisions" of photographic interest as I have checked below.

DIVISIONAL AFFILIATION:

Color () Photo-Journalism . () Stereo ()
 Motion Picture .. () Pictorial () Techniques ()
 Nature () My choice of one free divisional affiliation is: (please print)

Any dues remitted herewith are to be returned if my membership is not granted.

PLEASE PRINT OR TYPE
 Name Mr. _____
 Mrs. _____
 Miss _____
 Street _____
 City _____ Zone..... State.....

SPONSOR: As a PSA Member in good standing, it is my pleasure to nominate the above for membership in the Photographic Society of America:

Sponsor:

Address:

DIVISIONAL AFFILIATION: Participation in the special activities of any one division of interest is included free in annual dues; participation in additional divisions is optional; the fee is \$1.25 each per year. Check as many as you wish.

ANNUAL DUES: Individual Memberships for residents of North America \$12; Family memberships (husband-&-wife) \$18 (inc. 2 divisions). Individual overseas memberships (no divisional affiliation included) \$6. Of the annual dues \$2.50 is for a one-year subscription to the official publications of the Society; subscriptions at \$5 per year are acceptable only from libraries, educational organizations and government agencies.

CLUBS: Dues are same as for individual Membership, \$12, including one division. We suggest that one person be permanently appointed as your Club Representative to PSA. The Journal and PSA mail can be addressed to the club in his care.

SPONSOR: One required; if you do not know a PSA Member who will sponsor you please write to the Membership Committee.

.....A NEW **U** NICORN PRODUCT.....

Solvent Film Cleaner

CLEANS your film and tape

- * **RAPIDLY**
- * **SAFELY**
- * **AUTOMATICALLY**

All you have to do is put the film in place and fill the solvent tank. The new Unicorn cleaner does the rest automatically—and speedily with all scrubbing action taking place below the solvent level. It effectively cleans motion picture films (negative and positive) and magnetic tape at rates to 300 feet per minute with complete safety. Cleaning is accomplished by counter-rotating velvet covered scrubbing rollers, effectively removing dirt, lint, oil, fingerprints and wax.

The Model A-5100 is a combination 16/35 mm film cleaner. Other cleaners are available for 16 mm film only, 35 mm film only and for 70 mm film only. All models include these special features:

COMPLETELY SELF-CONTAINED. No vacuum pump or outside sources of air are required. The Unicorn cleaner is complete in itself.

FLUID CUSHION PROTECTS FILM. The fluid solvent forms a barrier between the scrubbing roller and film to prevent scratches and abrasions. Only velvet fibres lightly touch the film.

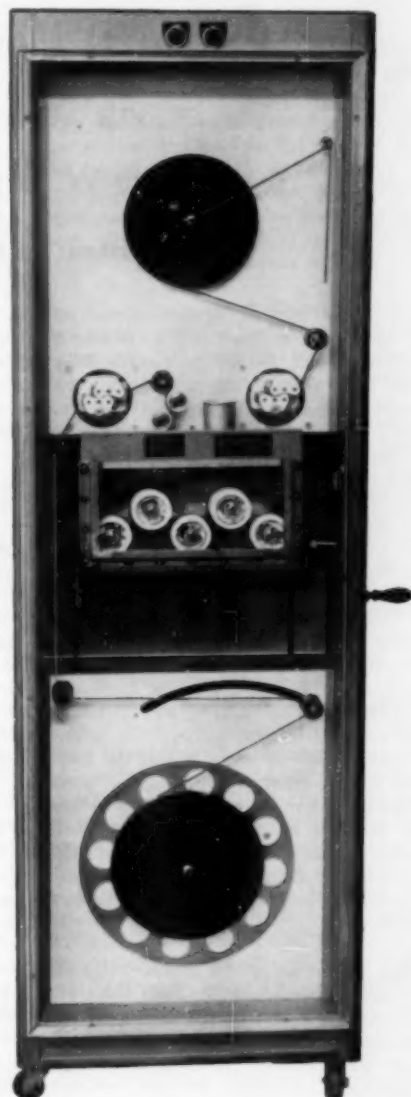

SPEED CONTROL. Operate at any speed from 0 to 300 feet per minute with adjustable speed control. Automatic shut-off leaves unit threaded for continuous operation.

COMPLETELY SAFE. Uses only non-inflammable, non-explosive solvents. Fumes controlled. Automatic shut-off in case of defective splices.

AUTOMATIC REWIND. Makes necessary torque adjustment as reel size increases.

LOW COST OPERATION. Solvents are continuously filtered and reclaimed; waste held to minimum. One pint of solvent cleans 3,000 feet of 35 mm film.

PRICE. Model A-5100 \$5,500 f.o.b. Sylmar, California.

Write us for complete information today.
Please address Dept 84.

PSA-MPD Movie Course

Lesson Seven—Titles

By George W. Cushman, APSA

Illustrations by the Author

A title is the wording that appears on the screen from time to time during a motion picture. We might classify titles into four groups, the main title, the credit title, the sub-title and the end title.*

The main title tells us the name of the picture. The credit title tells us who produced it, who directed it, who photographed it, and the names of everyone else who assisted in the making of the film. Often this requires two or three titles.

The sub-titles, sometimes called body titles, appear between the scenes of the film and serve to give additional explanation to the audience. And the end title tells us, simply, that the film has reached its conclusion.

In this day of sound films, the sub-title is just about a thing of the past, although the main, credit and end titles are used as much as ever. But since many amateur filmmakers have not yet reached the point of employing a synchronized commentary, the sub-title is necessary.

A. The composition of the sub-title is very important to a film, for if it tells too much, it robs the film of telling the story, and if it doesn't tell enough, then the audience is sometimes confused and puzzled by the various scenes. A sub-title, therefore, should tell only those facts which the picture cannot or does not tell, and which are necessary to the complete understanding and enjoyment of the picture.

In thinking of sub-titles for a film, the filmer should remember the old saying: "A sub-title is a necessary evil." This means, simply, that sub-titles are required in any film that does not tell its story completely within the scenes. Few of us can make a motion picture as perfect as that, therefore most films require titles.

They are an evil because they stop the action on the screen. That is, they interrupt the film story and continuity. And since this is a bad situation, we should use titles only when absolutely necessary. But when a title is necessary, we should never hesitate to use it.

B. Titles tell us what, who, when, where, why, and how, when such information is not given in the film pictorially. Titles should be short, brief, and to the point, giving the audience only such information as is absolutely essential to the complete understanding of the film. It is a sin to leave out necessary titles, but it is a much greater sin to use too many.

Since titles refer to the pictures being projected, they should be complete sentences always in the present tense. It is better to use two short titles than one long one. It is better yet to re-edit certain scenes so that one title can do for several scenes whenever possible.

C. How are titles made? We might refer to sub-titles as being of two types—those ready-made and often found when the film is being photographed, and those which the filmer must letter and then photograph himself.

In a travel film, for example, various kinds of sign posts, banners, markers, posters, and other signs can often be found which serve adequately as titles.

Fig. 7A

Illustration 7A is an excellent example of a title of this kind, often referred to by filmers as "natural" titles. This particular title was found close to "Iceberg Lake" in Rocky Mountain National Park in Colorado. Notice that all of the information it contains is information which the scene itself cannot give. First, it tells us the name of the lake, it tells the elevation, it tells why the lake was so named, and it tells that the ice remains most of the summer.

We might call this the ideal title for it is a natural title, making the audience feel that they are right on the spot. The film doesn't seem to have been interrupted as when a more formal artificial title is used. But most of all it tells us several facts which the shot of the lake itself does not and cannot tell us.

D. But it is not always possible to find titles such as these for our films, or, if we do find some, we don't find enough, or they don't quite fit into our particular film story.

Since this is so often the case, we must make our own titles and photograph them. How is this done?

Title making scares some people, probably because they don't realize that a title is nothing more than a close-up. A card is lettered in any of a dozen ways, set before the camera and photographed the same as any close-up.

E. It is a simple matter to obtain a large black card, two by three feet, letter it with white ink, set it up against the side of the house, and photograph it much as one would photograph the head and shoulders of a friend. Many, many amateur titles are made in just this way. There are, however, two drawbacks with this procedure which the serious filmer likes to eliminate. One is that such a shot demands sunlight, and the other is that a card this large is a bit too large. By shooting his titles inside with flood lights, and by using smaller cards and type, title making becomes not only easy but an interesting as well as vital part of movie making.

F. What do we need in the way of equipment for title making of this kind indoors? A title board is the answer, and although title boards can, and often are, fancy, ornate and complicated, when reduced to their simplest fundamentals they look much like our diagram in Fig. 7B.

Here is a long board with the title at one end, the camera at the other. Notice that the camera is raised on a small box or platform. This box is usually required in order to raise the camera just enough so that the lens is as high as the horizontal center of the title

*For a much more complete discussion of title making, read the author's book "How to Title Home Movies" published by Home Movies Magazine, Los Angeles, California.

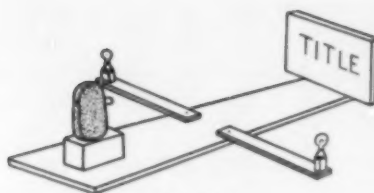

Fig. 7B

area on the board.

The flood lights are placed approximately as shown. They should be placed far enough out on each side so that there will be no reflection of the lights from the title board. If each light is placed at a 45° angle to the title board, there should be no reflection. If there is reflection, place the lights further out.

G. What lights do we use? Photographic stores carry what is known as a photoflood bulb. These come in two sizes, referred to as a Number One and a Number Two. The #1 has a life of about 2 hours and the #2, which is twice as bright in intensity, has a life of about five hours. They are not expensive, and if kept burning only when the camera is running, they will serve to illuminate many, many titles. Suitable reflectors, not shown in our diagram, are advisable.

H. Surely the next question that comes to mind is how large to make such a title board. This can be left pretty much to the individual, for with lens attachments we are able to photograph any size area from less than an inch wide on up. Therefore, the width to use should be whatever turns out to be most convenient for each individual filmer.

I. Perhaps at this point, then, we should consider some of the various lettering methods employed in title making at home.

Fig. 7C

Probably none is as perfect or all round satisfactory as those made with printer's type, an example of which is shown upper left in illustration 7C. A tremendous variety of type face styles is available, and the use of printer's

cuts is possible, as illustrated here. Any printer can set the type and make a single impression of it. Such impression with large type on a card 9 x 12 inches make an excellent title and is a perfect size with which to work on a title board. Some filmers have small hand presses with which they print their own sub-titles in this manner.

At lower left in the same illustration is an example of simple hand lettering. All one needs is a card and a brush and paints. Only the ability of the penman limits the kind and quality of lettering done in this manner. Any style is thus obtainable, and the lettering can be drawn to fit the mood and theme of the film. Most professional film producers have their titles hand drawn by a professional artist, and many amateurs, also, believe the expense of a well lettered title by an artist is small compared to the overall cost of the film they are making. Artists don't like to work on cards under 9 x 12 inches.

At the upper right we see lettering done by a template or lettering guide. These are a great help to the filmer who has no artistic drawing ability. Such guides are obtainable in most art supply stores and, by following lines cut in a piece of celluloid, the filmer can draw his own titles with creditable results. Cards 4x6 to 6x8 inches are most popular for lettering of this kind.

In the lower right hand picture may be seen a title being made with movable cut out letters. These may be purchased in sets at camera stores. The letters are placed on large cards and then photographed. The size of the letters will determine the size of the board, but 12 x 18 inches is about the minimum. Usually a card 16 x 20 or even 18 x 24 is utilized.

In some sets of letters such as this the letters have small pins on the back side. This permits the filmer to stick the pins into the background. If the letters do not have pins, then the title board must be placed on end and the camera shoots down on it.

J. Each method of title lettering has its advantages and disadvantages, a few of which we have pointed out here. Each individual will have to choose which method is best for him.

Once chosen, he can then determine how large his title board is to be, and from that measurement we can then determine how large the entire titling stand will have to be.

K. In order to determine this, let's suppose, for example, that the filmer has decided to use a mechanical lettering guide which he purchased from an art supply store and his titles will be drawn on 6 x 8 cards. It would, of course, be well to make the title board

DETERMINING FIELD

Width is $2/3$ distance.

Distance is $2 1/2$ times width.

DETERMINING FOCUS

Diopter times distance = 40.

Fig. 7D

a bit larger than 6 x 8 inches so that there can be a margin around the title for the placing of thumb tacks. Perhaps the board itself should be 8 x 10 inches, but the area to be covered by the lens is to be 6 x 8 inches.

The great question, then, is how far back must the camera be placed to exactly photograph a title area that is 6 inches high and 8 inches wide?

L. Let's study illustration 7D. Let's more than study it, let's memorize it. Let's write it down in our notebook now and read it every day for weeks until it is memorized.

For this is the formula, if you want to call it that, for determining the field covered by a standard lens. And you will remember that a couple of lessons ago we said that a normal lens on an 8mm. camera is a lens of a half inch focal length, and a normal lens on a 16mm. camera is a lens of one inch focal length (12% and 25mm respectively). This formula is for this normal lens only.

Now, what does this mean?

It is quite simple. It means that the width of the area covered by the lens is equal to $2/5$ the distance from the area to the camera lens. Or, to word it another way, the distance from the camera lens to the title is $2 1/2$ times the width of the title.

Now, let's see how this works.

We said that for our example we would use a title area 8 inches wide. Well, if the width of the area is $2/5$ the distance, then the distance from the area must be 20 inches. Is 20 not $2 1/2$ times 8? Indeed it is. That's all there is to it.

M. With this information it is now a simple matter to construct the title stand. Let's look again at Fig. 7B. The title board will want to be about 8 x 10 inches, with the area covered 6 x 8 inches, and the lens of the camera will want to be 20 inches away. In this example, then, the bottom base board should be about 30 inches long, and the support under the camera just high enough to bring the lens up to the center of the title area.

The lights should be placed from a third to half the way from the camera to the title board, or from 8 to 10 inches in front of the camera. They should be placed about as far to each side of the camera as they are from the title board.

N. So far so good. We now have the camera 20 inches from the title. Our next problem is to focus the lens accurately so that the image will be as sharp as possible. Let's assume we have a lens in a focusing mount that focuses at 2 feet—24 inches—but not any closer. What must we do?

The answer is that we must employ an auxiliary lens which will give us sharp focus at 20 inches. You will recall we mentioned this in one of our early lessons. Now we have need for it.

What kind of an auxiliary lens do we need and where do we get it? We need a lens with the proper refracting power which, when added to the lens already on the camera, brings the subject into sharp focus. The refractive power of a lens is measured in diopters. One diopter focuses at 40 inches, a 2 diopter focuses at 20 inches, a 4 diopter focuses at 10 inches, a 5 diopter focuses at 8 inches. Notice that the diopter rating of a lens when multiplied by its focusing distance always equals 40.

At this point let's look once again at Fig. 7D, at the formula below the line. Here again, let's do a little memorizing. The diopter of a lens times the distance at which it focuses always equals 40. This is a very simple, but extremely useful formula, for if we know the distance we can find the diopter, and if we know the diopter we can find its focusing distance.

O. Now let's go back to our example again. We said that the 8 inch title area would be just covered by the camera lens at a distance of 20 inches, but that the camera lens would not be in focus at this distance. Now we can determine what power auxiliary lens is needed.

Since the distance from camera to subject is 20 inches, 20 goes into 40 just twice. Therefore a 2 diopter auxiliary lens will be necessary, for our formula says that the diopter, 2, times the distance, 20, equals 40.

A 2 diopter auxiliary lens is obtained from the camera store, an optician, or even the spectacle department of the dime store. (In the latter, such lenses are referred to as +2, which means 2 diopters.)

The camera lens is set at infinity because the auxiliary lens does the focusing. It is placed as close to the camera lens as convenient and is held in place with a piece of Scotch tape, a special holder, adapter, or any other method satisfactory to the user.

P. Well, we have now determined the field covered, the distance from camera to subject, and the proper auxiliary lens to use. How do we know that when we place the title on the title

board the camera will include our desired area exactly? Truth is, we don't.

Remember a few lessons back we illustrated parallax? That trouble of not getting on the film what we see through the finder? Well, that trouble is a great one in title making, and the closer the title is to the camera, the more irksome that trouble becomes.

There are several good methods of finding the exact area covered by the lens. On a title board such as we have illustrated here, it is a simple matter to place a piece of newspaper on the title board, shoot a few frames, and when the film is developed, determine exactly the field covered. This works fine as long as the camera isn't moved, but every time the camera is removed and replaced on its support on the title stand, there is the good possibility that it may not return to the exact location with the result that ensuing title efforts are slightly off center.

Of the many methods offered for accurately centering titles, the one we illustrate in Fig. 7E comes as close to being accurate and fool proof each time as any.

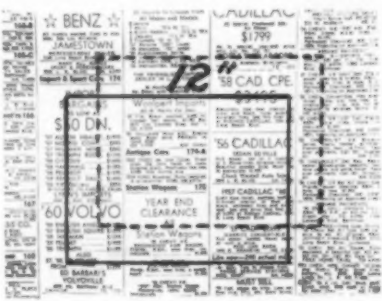

Fig. 7E

It works as follows: A piece of newspaper—the classified page is excellent—is placed over the entire title board. With a black crayon or grease pencil the area *seen through the finder* is drawn with a dotted line. Then a few frames are photographed being careful not to move or jar the camera.

After the film has been developed, a magnifying glass is used to determine the exact field covered on the film by the camera lens, and this area is noted on the same sheet of paper by a solid black line. The distance from camera to paper for this particular test is indicated on the paper, in this instance it is 12 inches, and the test is completed. We now have a relative scale which can be used with this camera forever at this same distance of 12 inches.

When it is desired to make some titles, or, for that matter, shoot a close-up of any object, this same sheet of newspaper is set up 12 inches away from the camera and so positioned that the dotted line field is seen exactly

through the finder. The filmer is then assured that the area enclosed by the solid black line will be covered exactly by his camera lens, and he can center his title or other subject, assured of success every time.

Many filmers have several sheets like this for various distances. This assures perfect centering at a great number of distances depending upon the size of the field being photographed.

Q. When making titles indoors with a title board such as we have described, the matter of exposure immediately pops up. This can be a long and continuing problem, or it can be licked once and for all. Any filmer worth his salt will prefer the latter, and this calls for the lights to be firmly fastened to the title stand so that they cannot move.

The sole purpose here is that they will remain forever in the same exact location. When the lights are so installed, a test should be made to see if they are reflected from the title board. If so, they must be moved outward until this reflection is killed. When this has been done, several exposures should be made of a few titles, some with white backgrounds, some with black backgrounds. These tests should be made at half stops beginning at f.11 or smaller, going all the way to f.2, or as wide as the lens will open.

Then, project these tests under ideal conditions, and note the best tests. These will be your standard exposures to use in the future, and as long as your lights are not moved, and the reflectors do not get tarnished or dirty, your exposure problems should be a thing of the past. But if you persist in doing what some amateurs do, and that is to move the lights all over the place, you can expect various exposure results. But when you standardize your procedure you can expect consistent results.

R. What, you will ask, should you use for a background for your titles? There are hundreds of types of backgrounds. In our illustration 7F we suggest four which are suitable. Top left is a group of old boards. The author used this background for titles in a gay nineties melodrama he made several years ago.

Below it is a textured background, in this instance being an old burlap sack. Top right is a background that is good with any film anytime, and that is, simply, a mottled background. Below it, in the lower right hand corner, is a photographic background. In this instance a suitable picture is enlarged and the lettering placed upon it.

Filmers usually prefer white or light colored letters on a black or dark background. For over half a century this has been traditional with film mak-

Fig. 7F

ing. Therefore, whatever background is chosen, it should be quite dark so that the white letters will show up clearly and may be quickly and easily read.

As a rule, the background should be rather plain. A figured background will appear to be confused and will not permit quick and easy reading of the words upon it.

And as for color, the same holds true. The background should be quite dark, and the lettering decidedly light. Color combinations that harmonize are best, such as yellow wording on maroon or brown, light blue on dark blue, and of course white wording will go nicely on any color.

The beginner at title making often makes the mistake of using too much color. In themselves they might be considered a thing of beauty, but remember what we said earlier about a title being a necessary evil—that we want to get it on the screen and off again as soon as possible. If it is rich in color and gaudy it will attract too much attention to itself. Sometimes the title is more colorful than the film and steals the show. This definitely, is not the purpose of a title. Therefore, keep the sub-titles rather plain and subdued. The main, credit, and end titles may be colorful and artistic, however, but not the sub-titles.

S. There are many interesting tricks and effects which the amateur can do with titles using the simplest of equipment. One of the first effects he will want to try is to make a title with a moving background. This is not at all difficult and can be accomplished with any camera and any title board set-up.

An example of what is required is shown in illustration 7G. At the top we see the wording—white letters on a jet

black background, in the center we see the background, and at the bottom we see the finished combination as it will appear on the screen.

To begin, the lettering should be white, or a very light color, but white is best. The background *must* be a dead black. If cut out letters are used, the background should be a piece of deep pile black cotton velvet. If paper or

Fig. 7G

cardboard is used, it should be a flat black—the darkest and duldest available.

This title, then, as shown in the top frame in 7G, is photographed with the camera, and the number of seconds the camera runs is noted. This title must not be over exposed, as this would tend to cause the background to register, and this we must not have. It would be best to close down the lens one half to one full stop in shooting this white lettering on black background.

Now comes the filming of the background. To do this, the film in the camera is wound back to the point where the first exposure (on the lettering) was started. Many filmers like to begin such title work at the beginning of a roll because this facilitates returning the film to the exact point at which this first exposure began. It is a simple matter to go into a dark closet, open the camera, take out the film, wind it back to the beginning, and then rethread it again. This assures that the ensuing exposure will begin exactly at the same place on the film.

Now we film the moving background. This is a relatively simple matter. The camera is set up in front of the desired scene and the exposure made for as long a time as was required to film the wording. That's all there is to it.

In order that the wording may stand out clear and sharp, the background should be underexposed at least one stop, and if it is light in subject matter, even two stops may not be too much. Backgrounds lacking in contrast are best for this type of work. It makes no difference whether the wording is photographed first or the background is photographed first, but most filmers prefer to shoot the wording first, for they then know exactly how long the background must be photographed. This assures the background will be as long as the wording, and no longer.

T. There are many ways of making titles with moving backgrounds. Some are complex and beyond the scope of this lesson, but at least one other method is worth mentioning here. It is illustrated in the top picture in Fig. 7H. This consists simply of lettering the title on a piece of glass, setting the glass up before the camera with the desired background behind it, and then making the exposure.

This method gives good results except that, when the lens is focused on the wording, the background may not be in sharp focus. To get the background as sharply focused as possible, two suggestions are offered. First, use as large a piece of glass as possible, with large letters, which means the glass will be some distance from the camera and thereby closer to the background. And, second, close the lens down as far as

Fig. 7H

possible. This will not only darken the background, which is desirable, but it will increase the sharp focus range of the lens, making the background sharper. Some filmers prefer this method of making titles on a moving background because no backwinding of the film is required.

U. There are many more tricks filmers can do with titles, and many methods of doing each. One of the most effective is the animated title in which the letters come onto the title one at a time.

This effect is best done with cut out letters. They are placed on the background one at a time, and after each one is placed on the background, one frame of film (or two) is exposed. This continues until all of the letters have been placed on the board. Sufficient additional film is then exposed on the finished title so that the audience may have time to read it.

With cut out letters that have a pin on the underside, the title board may be placed vertically, as illustrated in the lower picture in Fig. 7H. In this example the letters are moved into place from the edge of the title board, with each letter being moved an inch or so at a time, then one frame is exposed, another move made, another frame exposed, and so on until the entire title has been created.

V. In an earlier lesson we pointed out how backward action could be achieved by holding the camera upside down. Backward action is quite effective in title making. Either the camera can be held upside down, or the title can be placed upside down. The latter

is usually preferred in title making since it is much simpler.

One trick to film in this manner is to make the words of the title out of white string. Shoot sufficient footage for the title to be read, then draw the string slowly off the board. When the film is projected in the reverse manner—that is, the ends of the film are switched and the beginning shown first, the string will seem to appear from nowhere and magically form the words of the title.

This effect is also intriguing when the title is composed with paper cut out letters. Then an electric fan is moved close to the title which blows the paper letters away. When projected in the opposite order, the letters seem to fly into the title from out of the air to form the proper wording.

Title tricks are fun to do and fun to watch, but the wise filmer will restrict such effects to the main, credit and end titles, for with sub-titles it must be remembered that they are necessary evils and should be as unobtrusive as possible. The quicker they get on and off the screen, the better.

W. There are many hundreds of similar tricks that can be performed with titles, and as the filmer studies film making further he will learn about them and can eventually discover how to make innovations of his own.

The author wishes to thank Ed Resemeier of the Toledo (Ohio) Movie Makers for contributing some of the material used in this month's lesson.

Cinema Clinic

Conducted by George W. Cushman, APSA

And Look at Them, Too

Today we are living in a great automatic, push button age. Every day more and more things are done for us, as we control them by remote control, simply by pushing a button.

Our great hobby of movie making is no exception. When I began making motion pictures over 30 years ago there was no such thing as an exposure meter. We were forced to calculate the prevailing light on our subjects, guess the exposure, and hope we had done a good job. When the film came back from the processing station we soon learned how well we had played our guessing game. It was surprising how the high cost of film sharpened our judgment quickly, and to a very marked degree.

Photoflood lamps for indoor filming had not yet been invented. If we wanted to shoot indoors we used the sunlight coming through a window. To shoot an interior scene for a photoplay I made in those days I constructed my own arc light. How much light did it throw? What exposure should I use? Again, no exposure meter existed to guide me. It was a matter of costly trial and error. You may be sure I kept an accurate record of every exposure and lighting condition—something today's filmer never dreams of doing.

I made my first fades with a piece of smoked glass. It was by-guess-and-by-gosh. Once in a while I got a pretty acceptable lap dissolve, and what a

thrill it was to have succeeded when the chance of failure was rather high.

My first titles were badly off-centered. Who ever heard of a reflex motion picture camera? I would shoot a title, and then wonder for a week if it was properly centered. Or 'y upon projection was my question answered.

In those days movie making had a certain thrill about it that is gone today. Whenever we took a shot we didn't know for sure if it would be good or not until it had been developed. We were elated when a shot was particularly good, and of course downhearted when a shot we tried so hard to get was disappointing.

Today movie making is largely an automatic, mechanical process. Not only do we have accurate exposure meters to tell us exactly what lens stop to use, but we have the automatic eye which sets the lens for us.

We have excellent reflex systems which give us the exact field covered and the proper focus.

We have automatic buttons and mechanisms which give us perfect fades and lap dissolves. There is nothing left for us to do.

When we begin to show our films we have automatic projectors—machines that thread themselves. We merely throw one switch and not only does the projector begin but the room lights go off at precisely the same instant. And I have recently seen advertised a click arrangement that is placed on the film

three feet from the end which gives the operator a signal that the film is about over. Perhaps it is to wake him up.

But so far no one has been able to invent a thinking machine. This would be the ultimate in movie making. Of course, most of the thinking has been eliminated due to these many automatic gadgets. What we need now is a simple machine that will do the rest.

Such a machine would decide where the camera should be set up, would start and stop the camera at the proper times, would edit the film into proper order, would set up the screen and projector and project the film—all without even so much as a whisper from the filmer himself—if at this stage of the game he could be called a filmer.

Now some people, I am sure, would welcome all this automation. They wouldn't have to think. Automatic machinery would do it all for them.

I have seen some films produced in this automatic, non-thinking manner, and I am sure most of you have, too. They are well exposed and properly centered and focused. They look wonderful on the screen, but the coordination of the scenes—the result of thinking on the part of the owner of all this barrage of shiny equipment—is sadly lacking. His pictures are, to my way of thinking, hardly worth looking at.

He has had all the fun. He has purchased all these automatic gadgets. He has pressed the buttons that compelled them to work and he has been amused

by the whirring of the dials and the sound of the mechanism.

He pops the buttons off his vest as the lights go out and the pictures appear on the screen—pictures that he produced by pressing a button—pictures that are fully automatic in every respect—devoid of that intangible but all important thinking process the filmer did not think necessary to his efforts.

But with all our automatic machines, there is one more that must be invented—a machine to be used with all pictures made in this automatic, unthinking process—a machine to be used when such pictures are projected and the vest buttons begin to fly.

I do not know that I could invent it, but I hope someone invents it—and soon. What a time saver it would be on the part of all of us who are frequently subjected to viewing these automatically made pictures.

What is this machine? It is a machine that would automatically look at them, too!

Report

from p. 2

commentary are available to PSA affiliated clubs. Additional commentary is supplied by an expert print maker in this country. The purpose of this exchange is to stimulate new ideas thus broadening and promoting better photography as well as promoting friendlier relations between the various countries.

And now let me tell you about the excellent National Lecture Program. Its purpose is to provide PSA-affiliated clubs with outstanding lecture programs which they are unable to obtain locally. Most of the lecturers are world renowned and their material has wide appeal. Basically they give the audience ideas or pointers that they can put to use in their own photography. Drake DeLanoy, APSA, is the chairman of this committee, and he schedules about three tours a year between October 1st and June 1st. Of course these lecturers rate a fee to cover expenses and usually require a larger audience than small clubs can supply. Therefore Drake suggests that several clubs in one area get together to sponsor a lecture, thus assuring an audience of at least several hundred people. This will also minimize the cost to each club. Many of these top notch speakers will draw audiences of over 1,000 persons especially in the metropolitan areas.

As you can see, each PSA service is different in character but all of them are designed to bring a specialized knowledge to every PSA member. I sincerely hope that when your club is arranging programming for the current year they will keep in mind the advantages offered by the various services outlined in this letter.

PSA

Recorded Lecture

PROGRAM

The Recorded Lecture Program offers the following programs for your club. Each program consists of a set of 2x2 slides and a tape-recorded commentary, average length, 50 min.

28. **Color Portrait Photography**, by Robert G. Speck. In this lecture the monochrome portrait worker will find almost as much of interest as the color worker. You are shown, in logical sequences, Bob's use of equipment, exposure, background, posing, draping, lighting, color make-up, and imagination in the making of his 35mm portraits. Many pretty models were used in making the 73 color slides in this 55 minute lecture.

25. **Children as Subjects**, by Dr. John W. Super, FPSA. This lecture will be of equal interest to the color and monochrome worker. Many ideas are given on the posing and placement of children in a picture. There is a section on the lighting of young subjects as well as many outstanding pictures by Dr. Super. 64 slides in color and monochrome with a 45 minute taped commentary.

18. **Table Top Tricks**, by LeVerne Bovair, FPSA. This noted photographer gives many of his tricks of creating realism by explaining his technical data and prop making techniques in this lecture. His "Trip into Space" sequence will bring a chuckle from all. 60 color and monochrome slides are accompanied by a 55 minute clever talk.

11. **Prints I'd Never Send to a Salon**, by George R. Hoxie, FPSA. A vivid display of prints which did go—and did very well—to the salons. Don't let this title fool you! There's a terrific wealth of info in this lecture for present and future salon exhibitors. 40 slides, 59 minutes.

For a complete list with full description of all RLP Lectures see the latest RLP Catalog.

Orders for Lectures should be mailed at least 45 days before the date of showing.

A service charge is made for each lecture. For clubs which are members of PSA, the service charge is \$5, plus a deposit of \$20 which is returned upon request. Your first order should be accompanied with a \$25 check, to cover deposit and service charge.

Clubs which have not used a lecture and want to order, or want information, or a catalog should write to:

Whom To Write

SALONS—Write the person listed for forms. Note that salons are on the list for months ahead and that additions are made every month. Allow yourself plenty of time to get the forms and ship your entry.

SERVICES—Write the person listed. If in doubt, several Divisions list under "Membership" the person who can steer you to the correct source of information. Note separation of services for Individuals and services for Clubs. "Individuals" includes only PSA members. (All service leaders are requested to notify the Journal of address changes at the same time they notify Headquarters.) Names and addresses of Division and Zone heads are listed under the Board of Directors on page 3. Write them if your question covers other subjects.

OUTSTANDING 35mm SINGLE-LENS REFLEX

ONLY THE *Contaflex* **SUPER**

Exposure meter is coupled with lens diaphragm for automatic exposure control.

Combined rangefinder and focusing screen insures sharp focus.

Zeiss Tessar 1/2.8 50 mm lens takes tele, wide-angle and 1:1 component lenses; also 400mm (8x) monocular.

Synchro Compur MXV shutter to 1/500 sec. and self-timer.

Rapid single-thrust lever for fast sequence shooting.

DOES IT LIKE THIS

Sighting, focusing and checking of exposure all through one eyepiece. Exposure needle indicator at right is seen while sighting. DOES NOT OBSTRUCT THE FIELD OF VIEW.

Takes pictures of small objects at 1:1 natural size to distant scenes with 400mm (8x) tele. Only Contaflex, with accessories, offers this at a price and quality never before attained.

Contaflex SUPER, \$199. Contaflex RAPID, without built-in exposure meter, \$169.

At leading dealers. Write for literature.

"Credit Card" That Pays Cash!

By L. B. Dunnigan, APSA
Membership Vice President

Something or other is always "the rage" in America, land of fads and fancy.

One day it may be high-button shoes, another time goldfish-swallowing, still another time will see miniature foreign cars or Elvis enthroned.

Necessity of the moment is the credit card. There are credit cards for restaurant meals, cards for travel, cards for phone calls or gasoline, cards that cost so much a year, cards that cost nothing, cards that return in cash a premium for the "credit" holder who uses the card but pays cash.

It takes some doing to come up with a new kind of credit card these days, what with just about everything covered by the hundreds that pack the average gent's wallet.

But PSA has done it. A brand new credit card, that is. And this one's the best of the lot. It not only represents credit, it pays the tab itself! You haven't got a credit card in your pocket now that will turn that trick.

Interested? You should be, because you'll never come across a chance like this again. So here's how it works:

Every time you sponsor a new member for PSA you receive an acknowledgement card from Headquarters on which is printed the new member's name, address and division affiliation, which you should check for error.

Beginning January 1, 1960 these acknowledgement cards will become credit cards. Each will represent a \$1 credit toward your next PSA dues.

How do you like them apples, as we used to say in our younger days. If you can find a better credit-card system anywhere in the world than this one, you've got connections, brother.

These cards of course will not be transferable and will be of value only against your PSA dues. But there's no limit to the number you can chalk up to your credit. Why, man, you can pay yourself up for life in the world's greatest photographic society if you'll just work at it.

Decision to share the organization's income, just like the big companies are doing these days with their union employees, was made by the PSA Board of Directors during the Louisville Convention.

The Credit Plan will be part of a big new membership effort planned to put PSA on the solid footing necessary to meet steadily rising costs, and to bring

our treasury to a place where more and better activities, services, publications and other benefits will be available. These things cost money, and PSA presently is at the awkward point of being so large the costs are terrific but not large enough to have a fluid working capital for broadening its horizons.

Other phases of this overall membership effort will be explained next month on the "President Reports" page of the Journal. Be sure to read it. That part will concern you, too.

Meanwhile, here are the "rules" of the Credit Plan:

Each new membership will result in a \$1 credit that can be used by the sponsor in paying his own dues.

The "credit cards" must be kept by the sponsor and turned in by him at the time he pays his dues, together with the necessary difference in cash.

There is no limit to the number of \$1 credits that can be accumulated by a sponsor, and they can be applied against any future dues if turned in before December 31, 1962, three years from now.

Present Board approval for credits extends to new members admitted through December 31, 1961, two years from now.

Foreign memberships are not eligible for credits, and family memberships will count as one credit of \$1. There will be no extra credit for the number of extra division affiliations on the part of the new member.

A new member is one who has not been a member of PSA for at least a full year preceding his membership that results in a sponsor credit.

The credit can be used only against the dues of an individual sponsor and are not transferable from that original sponsor. (But there's nothing to prevent a civic-minded club member from turning over to his club the actual dollars he saves through the Credit Plan, for use by his club in meeting its own dues, if he desires. The credits themselves, however, must be used by him against his own dues only.)

So there you have it. There's the way you can make your wonderful PSA membership cost you little or nothing. There's your answer to those budget problems. There's the way to bring pleasure to the lives of other photographers while bringing relief to your own pocketbook.

So get out and start moving lining up new members. You can read the rest of the Journal when you get back.

FOR EVERYONE WHO TAKES PRIDE IN HIS PICTURES

DIRECTORY OF MEMBERSHIP

This list of members was prepared by PSA Headquarters as of December, 1960. Names and addresses are followed by a code indicating Divisional Affiliation and month and year of joining PSA. When no Division letters appear, it means the Headquarters has no record of affiliation with a Division. A geographic index will be found at the back.

Every effort has been made to insure the accuracy of the listings, but your cooperation in checking your own name, address, and Division is earnestly requested. Errors can be corrected only with your help. Communications should be addressed to PSA Headquarters, 2005 Walnut Street, Philadelphia 3, Pennsylvania.

The code used is as follows:

1 - Cornerstone Member
11 - Life Member
* - Travel Aid
C - Color Division
M - Motion Picture Division

N - Nature Division
J - Photo-Journalism Division
P - Pictorial Division
S - Stereo Division
T - Techniques Division
* - Deceased

Because of space limitations, all miscellaneous memberships, subscriptions, etc., have been omitted.

Extra copies of this Directory may be purchased by members only from PSA Headquarters, 2005 Walnut St., Philadelphia 3, Penna., at \$1.00 each, payable with order.

Use of this Directory for sales solicitations is made without the approval or sanction either of PSA or of PSA Journal. PSA Members are reminded that it is impossible to provide the convenience of a membership list without risking its use for sales or other commercial purposes. Such use constitutes no endorsement by PSA or by PSA Journal of products or services thereby offered.

PSA CONSTITUTION AND BY-LAWS OF DECEMBER 1946

Article I

PURPOSES

This Society shall be a medium for cooperative action in promoting the arts and sciences of photography and for furthering public education therein.

Article II

MEMBERSHIP

Section 1. *General.* This Society shall be a membership organization, enrolling individuals, organizations and business firms as members. Individuals may be enrolled as (a) Active Members, (b) Honorary Members, (c) Cornerstone Life Members, (d) Life Members, or (e) Contributing Members. Organizations may be enrolled as Organizational Members. Business firms may be enrolled as Industrial Members.

Section 2. *Charter Members.* Individuals and camera clubs so designated in the Constitution and By-Laws of this Society adopted March 13, 1935.

Section 3. *Active Members.* Individuals who shall have met requirements and paid dues prescribed by the Board of Directors.

Section 4. *Honorary Members.* Individuals who, having rendered distinguished service to this Society, or to photography, or who for other adequate and stated reasons shall have been elected Honorary Members by a three-fourths (3/4) vote of the Board of Directors. Upon conclusion of service in office, without impeachment, each President of this Society automatically shall become an Honorary Member.

Section 5. *Cornerstone Life Members.* Individuals who have met requirements and, in lieu of dues, shall have paid a single Cornerstone Life Membership fee of two hundred (\$200.00) dollars or more. The number of Cornerstone Life Members shall be limited to two hundred and fifty (250).

Section 6. *Life Members.* Individuals who shall have met requirements and, in lieu of dues, shall have paid a single life membership fee as prescribed by the Board of Directors.

Section 7. *Contributing Members.* Individuals, business firms, or organizations contributing to the financial support of this Society under conditions prescribed by the Board of Directors.

Section 8. *Industrial Members.* Business firms engaged in the photographic industry, or related industries, which shall have met requirements and paid dues prescribed by the Board of Directors. This provision shall not be interpreted as prohibiting the Board of Directors from establishing such other relationships with business firms or organizations as may benefit this Society.

Section 9. *Organizational Members.* Organizations such as, but not limited to, camera clubs, camera club councils, libraries, educational institutions, scientific societies, and cultural groups, having activities and interests consonant with those of this Society and which shall have met requirements and paid dues prescribed by the Board of Directors.

Article III

INITIATION FEES AND DUES

Section 1. *General.* Initiation fees and membership dues shall be fixed by the Board of Directors.

Section 2. *Payment of Annual Dues.* Dues shall become payable upon application for membership and thereafter annually in advance upon the anniversary date of admission to membership. Members whose dues shall remain unpaid thirty (30) days after the anniversary of their admission to membership in this Society shall be considered as not in good standing.

Section 3. *Arrears.* The Board of Directors shall prescribe rules for removing from the membership those whose dues remain unpaid.

Section 4. *Exceptions.* No payment of initiation fees or dues shall be required of Honorary Members or Honorary Fellows of this Society.

Section 5. *Initiation and Life Membership Fees.* Initiation fees from whatever source and single payments of fees by Life Members shall be added to the reserve funds of this Society.

Article IV

DUTIES AND PRIVILEGES OF MEMBERS

Section 1. *Duties.* Members shall abide by this Constitution and these By-Laws and shall keep this Society informed of their correct mail addresses.

Section 2. Privileges.

(a) Active, Contributing, Cornerstone Life and Life Members shall enjoy all rights and privileges customarily appertaining to such memberships, or otherwise as established by the Board of Directors.

(b) Associates, Fellows, Honorary Fellows, and Honorary Members shall enjoy the basic status of Active Members, with additional rights and privileges established by tradition or granted by the Board of Directors.

(c) Each Industrial and Organizational Member shall designate an official representative an individual who shall enjoy the basic status, rights, and privileges of Active Member, but shall not hold office.

Section 3. *Identification.* For so long as they shall maintain membership in this Society, members shall be entitled appropriately to display the official insignia of the Society and to append to their names an indication of their status in this Society as prescribed by the Board of Directors.

Section 4. *Relinquishment of Claims.* All right, title, and interest, whether legal or equitable, of a member in and to the property of this Society shall cease upon termination of membership for any reason.

Article V

MEMBERSHIP MEETINGS

Section 1. *Transaction of Business.* The official business of this Society may be transacted by mail.

Section 2. *Annual Meeting.* An Annual Meeting of the membership shall be held each year at a date and place designated by the Board of Directors.

Section 3. *Special Meetings.* Special Meetings of the membership may be held at the call of and at dates and places designated by the Board of Directors.

Section 4. *District Meetings.* District Meetings, for members resident in any District herein defined, may be held at the call of District Representatives, or of a majority of members resident in any District.

Section 5. *Quorums.* A quorum for any Annual or Special Meeting of the membership shall consist of not less than fifty (50) members. No quorum shall be required at District Meetings. A quorum of mail ballots shall consist of not less than one-tenth (1/10) of the membership.

Section 6. *Notices of Meetings.* The Annual Meeting shall include an Annual Business Session for the transaction of official business requiring consideration by the membership. Only business specified in the notices thereof shall be transacted at Special Meetings. District Meetings shall be forums for discussion of the affairs of this Society.

Article VI

OFFICERS AND OFFICIALS

Section 1. *General.* This Society and its Districts, Divisions, Sections, Chapters, and other units shall select all officers by popular vote for one (1) term of two (2) years. All officers shall continue in office until their successors qualify. The President and the Executive Vice President shall not be eligible to serve more than two (2) terms consecutively in the same office.

Section 2. *Officers.* The national officers of this society shall be a president, executive vice president, services vice president, convention vice president, editorial vice president, membership vice president, secretary, and treasurer, all of which shall be elected by the membership. Each retiring president shall serve in a supervisory capacity as past president for the term of his immediate successor.

Section 3. *Officials.* Zone Directors and District Representatives, who shall be elected in accordance with the provisions of this Constitution and these By-Laws; Honorary Representatives, who shall be appointed annually by the President with the approval of the Board of Directors; and an Executive Secretary and such other appointees as the President and Board of Directors may deem necessary, shall have the status of officials of the Society.

Section 4. *Remuneration.* No elective officer of this Society shall receive cash remuneration for serving in office. Remuneration and terms of office of appointees shall be fixed by the President with the approval of the Board of Directors. At the discretion of the Board, any national officer may be granted an allowance to meet travel and incidental expenses incurred while conducting the official business of this Society.

Section 5. *Conduct in Office.* Officers and officials of this Society shall conduct themselves and direct the affairs of office in manner consonant with policy and procedure established by the Board of Directors, and shall perform the duties specified in this Constitution and these By-Laws.

Section 6. *Duties of Officers.* The President shall promote the good and welfare of this Society, perform all duties customarily appertaining to the office, preside at all meetings of this Society, National Council, and Board of Directors; and otherwise shall serve as required by the Board of Directors by the

exigencies of office, and by this Constitution and these By-Laws.

The Vice Presidents shall perform such duties as may be delegated by the President or required by the Board of Directors.

The Secretary shall perform duties required by the laws of the state in which this Society is incorporated; shall supervise the keeping in bound form of the official minutes of the National Council and Board of Directors; sign checks on behalf of this Society, when required; and shall perform other duties delegated by the President, required by the Board of Directors, and specified in this Constitution and these By-Laws.

The Treasurer shall perform duties required by the laws of the state in which this Society is incorporated; sign checks on behalf of this Society, when required; supervise the preparation of the budget; prepare the annual financial report for publication in the official journal within six months after the close of the fiscal year; supervise the annual inventory of the property and possessions of this Society; render to the Board of Directors a monthly statement of income and expenditures, with balance sheet; and perform other duties delegated by the President, required by the Board of Directors, and specified in this Constitution and these By-Laws.

Section 7. *Duties of Officials.* The Executive Secretary and other appointees of the Society shall perform such duties as may be delegated by the President or prescribed by the Board of Directors. The District Representatives faithfully shall represent their respective Districts, ascertain and advise the President, National Council, and Board of Directors as to the desires and recommendations of members resident within their respective Districts, perform duties required by the President or prescribed by the Board of Directors, and otherwise promote the growth, welfare, and interests of the Society. The Zone Directors shall faithfully represent their respective zones, ascertain and advise the President, National Council, and Board of Directors as to the desires and recommendations of members resident within their respective zones, perform duties required by the President and otherwise promote the growth, welfare, and interest of the Society. Each Zone Director shall be responsible for the supervision of the District Representatives in his zone, as directed by the Board of Directors. The Honorary Representatives shall perform such duties as may be prescribed by this Constitution and these By-Laws or required by the President and Board of Directors.

Section 8. *Scope of Authority.* No officer, official member, or employee of this Society shall commit this Society as a whole to any policy, agreement, responsibility, project, undertaking, or unauthorized expense without the approval of the Board of Directors.

Section 9. *Delegation of Authority.* With the approval of the Board of Directors, elective officers may delegate any of the duties of office to responsible officers, officials, members, or employees of this Society.

Section 10. *Reports of Officers.* All Officers shall make written reports of the activities of office annually, or otherwise as required, to the Board of Directors.

Section 11. *Use of Corporate Seal.* The corporate seal of this Society shall be used only by a national officer with the specific authority of the Board of Directors.

Section 12. *Vacancies in Office.* Any office in this Society other than that of President, or in its Divisions, Districts, Sections, Chapters, or other units, or an official position, which for any reason shall become vacant, may be filled for the unexpired term by appointment by the President with the approval of the Board of Directors. Temporary vacancies in any office except that of the President may be filled by the President with the approval of the Board. Any vacancy occurring for any reason in the office of President shall be filled for the unexpired term in proper succession by the Executive Vice President.

Article VII

ELECTION OF OFFICERS AND REPRESENTATIVES

Section 1. *General.* The Board of Directors shall prescribe rules and regulations governing national elections of this Society in accordance with democratic principles, fix the date thereof, appoint the Nominating Committee provided herein, and, in case of contests or protests, render final decisions.

Section 2. *Year of Election.* To assure continuity in operations the national officers and Zone Directors of this Society and the members of this Society shall be elected each odd year. The Divisional officers and Executive Committees and the District Representatives shall be elected each even year.

Section 3. **Nominating Committee.** A Nominating Committee of five (5) members shall be created in each even year to serve until the anniversary date of the succeeding even year. The Nominating Committee shall be appointed by the Board of Directors, but shall elect its own chairman. Not more than two (2) members of the Nominating Committee shall be elective members of the Board of Directors.

Section 4. **Procedure.** At least five (5) months prior to the official election date, the Nominating Committee shall have prepared an official slate of one or more candidates in good standing for each national, sectional or district office. The Nominating Committee shall have obtained acceptance of candidacy, and of office if elected, from each candidate, and shall certify the slate of candidates to the Secretary who shall cause such slate of candidates to be published in the official journal of this Society at least three (3) months before the election.

Section 5. **Petition Nominations.** Any twenty-five (25) or more members in good standing of this Society may submit to Headquarters a written petition nominating any eligible member for any national elective office. Any twenty-five (25) or more members in good standing of this Society, resident in one of the four geographical sections described in Article IX, Section 2-e of these By-Laws, may submit to Headquarters a written petition nominating any eligible person resident in that geographical section for that section's representative on the Board of Directors. Any ten (10) or more members in good standing of this Society resident in a District may submit to Headquarters a written petition nominating any eligible person resident in that District for the office of that District's representative to the National Council. All petitions, to be valid, must be accompanied by a statement in writing from each candidate declaring his or her willingness to accept office if elected, and shall have been submitted to Headquarters at least forty-five (45) days in advance of the official election date. Petitions so submitted shall be certified to the Secretary and to the Elections Committee who shall, in turn, cause the names of such candidates to be placed upon the official ballot.

Section 6. **Ballots.** Upon certification by the Nominating Committee of an official slate of candidates for national or District offices, and for the Board of Directors, the Elections Committee shall cause to be prepared and distributed to the membership by mail official ballot forms upon which shall appear the names of all candidates, the offices for which they have been nominated, and full instructions for use and return of the ballots. Candidates nominated by petition shall be so indicated.

Section 7. **Voting.** All members in good standing of this Society shall have the right to vote for all candidates for national elective office, but only those members in good standing of this Society resident in a given geographical section or district, as such geographical sections or districts are described in these By-Laws, shall have the right to vote for representatives of that section or district.

Section 8. **Uncontested Offices.** In cases of uncontested offices, the Secretary of this Society shall cast the ballot of the entire Society for such nominees and they shall be declared elected.

Section 9. **Tally and Announcement of Results.** The Elections Committee shall appoint four (4) members, none a candidate for office or having national or District office, as official tellers to assist in counting the votes and recording the tally. As soon thereafter as practicable, the Elections Committee shall certify to the Board of Directors the results of all elections. These results shall be published in the official journal.

Section 10. **Installation.** Officers and officials of this Society shall assume the duties of office at the first annual meeting of the Board of Directors subsequent to their election.

Article VIII

NATIONAL COUNCIL

Section 1. **General.** Representative government of this Society shall be established through the medium of a National Council, which shall have the powers of recommending policies, procedures and practices for this Society, and of proposing and ratifying amendments to this Constitution and these By-Laws.

Section 2. **Composition.** The National Council shall be composed of the following:
National Officers Division Chairmen, Zone Directors, District Representatives, Chairmen of the Standing Committees, Past President and Honorary Representatives when visiting the United States.

Section 3. **Meetings.** The National Council shall hold at least one (1) meeting annually, and otherwise shall meet at the call of the President. The President shall call special meetings of the National Council upon the request of one-third (1/3) of the members thereof.

Section 4. **Notice of Meetings.** Notices of regular or special meetings of the National Council shall be served upon all members thereof at least two (2) weeks in advance.

Section 5. **Transaction of Business.** Any business presented by officers, officials, or members of this Society may be transacted at any meeting of the National Council. The National Council may transact business by mail.

Section 6. **Quorum.** Presence of one-fourth (1/4) of the membership thereof shall constitute a quorum for any meeting of the National Council. Any member of the National Council unable to attend a meeting may vote by mail, such vote having full force and effect.

Section 7. **Reports of Meetings.** Reports of meetings of the National Council shall be published, as soon as practicable, in the official journal.

Section 8. **Minutes.** Minutes of meetings of the National Council shall be kept in an official, bound minutes book and shall be subscribed by the presiding officer and by the secretary of the meeting.

Article IX

BOARD OF DIRECTORS

Section 1. **General.** Management of this Society and administration of its affairs shall be vested in a Board of Directors, which shall function as a working cabinet for the President, shall establish the headquarters of this Society, shall have the power to suspend or expel members and recall officers of this Society, and shall exercise all other managerial powers except those herein prescribed for the National Council.

Section 2. **Composition.** The Board shall be composed of the following:

- a. The National Officers.
- b. The Chairmen of the Divisions.
- c. The Chairmen of Standing Committees.
- d. The retiring President who shall serve for the term of his immediate successor.
- e. Four (4) members of this Society, one elected from each of the following four (4) regions, the first to represent the geographical eastern section of the United States comprising the official Eastern Time Zone, the second to represent the geographical and mid-western section of the United States comprising the official Central Time Zone, the third to represent the western section of the United States comprising the combined official Mountain and Pacific Time Zones, and the fourth to represent all Provinces of Canada.

Section 3. **Meetings.** The Board shall hold at least six (6) meetings each year, not more than three (3) months elapsing between meetings. The Annual Meeting of the Board shall be held each year at the Annual Convention. Otherwise the Board shall meet at the call of, and at times and places designated by, the President. All meetings of the Board shall constitute closed sessions, but shall be open to members of the National Council upon application, and to others by invitation.

Section 4. **Transaction of Business.** Any business related to the affairs of this Society may be transacted at any meeting of the Board. In addition, the Board may transact emergency business by mail, telegraph or telephone.

Section 5. **Quorum.** Presence of five (5) members thereof shall constitute a quorum for any meeting of the Board.

Section 6. **Reports of Meetings.** Reports of meetings of the Board promptly shall be made to the National Council, and shall be published, as soon as practicable, in the official journal.

Section 7. **Minutes.** Minutes of the meetings of the Board shall be kept in an official, bound minutes book and shall be subscribed by the presiding officer and by the secretary of the meeting.

Section 8. **Employees.** The Board may create positions of employment necessary properly to conduct this Society's business; employ, or authorize the employment of, qualified personnel; dismiss, or order the dismissal of, any employee; and prescribe terms of employment and remuneration. No employee shall be required to be, or to become, a member of this Society. No employee shall be eligible for elective office, or for appointive office other than those open only to employees. Employees may hold membership on committee of this Society only with the approval of the President.

Section 9. **Professional Services.** The Board may engage professional services and exercise the right to select, remunerate, and otherwise control such services.

Article X

COMMITTEES

Section 1. **General.** Standing and Special Committees respectively to promote specified continuing and temporary activities of this Society shall be created by resolution of and be responsible to the Board of Directors. The activities, objectives, and scope of authority of such committees shall be specified by the Board.

Section 2. **Personnel.** Chairmen of all Standing Committees, except as otherwise provided herein or committees having special organizational or legal relationships, shall be appointed annually by the President with the approval of the Board. Chairmen of Special Committees shall be appointed and discharged by the President. Unless otherwise directed by the President, chairmen shall select the members of their respective committees.

Section 3. **Organization.** Standing Committees supervising activities of such a nature as to necessitate continuous operation and permanence of personnel, or involving legal relationships with or of this Society, may establish special organizational and operating procedure with the approval of the Board.

Section 4. **Reports.** Standing Committees shall make written reports of activities annually, or otherwise as required, to the Board. Special Committees shall make written reports of activities as required by the President. Reports of all committees shall be published at least once annually in the official journal.

Article XI

DIVISIONS

Section 1. **General.** When in its opinion such action advances the objects of this Society and serves the interests of the membership, or upon petition of not less than one hundred (100) members resident in at least three (3) Districts, the Board of Directors may create, establish, combine, reorganize, or discontinue national Divisions of this Society for specialized activities in various fields of photography.

Section 2. **Membership and Fees.** Members of the Divisions must be members of this Society. Membership in Divisions shall be voluntary. With the approval of the Board, Divisions may impose membership fees, which shall be additional to the membership fees of this Society.

Section 3. **Organization.** Each National Division shall be governed by Divisional Officers and an Executive Committee. The Divisional Officers shall be a Chairman, one or more Vice Chairmen, Secretary and Treasurer. The duties of Secretary and Treasurer may be combined in the office of Secretary-Treasurer. The number and duties of the Vice Chairmen shall be determined by the Executive Committee of that Division. The Divisional Officers shall be nominated and elected by the membership of the Division, under procedure established by the Board, for a term of two years. The Divisional Executive Committee shall be composed of the Divisional officers, immediate past Chairman, and committee chairmen to a limit of not more than twenty-five (25), and in addition may also have, at the option of the foregoing officers, two (2) representatives from each section or chapter elected in even years for a term of two (2) years. At the time a new Division is established, the Divisional officers and the Executive Committee shall be appointed by the President, with the approval of the Board, to serve until the subsequent Divisional election.

Section 4. **Operation.** Under rules and regulations approved by the Board, each Division shall operate to promote the interests of its membership in its specified field of photographic activity.

Section 5. **Reports and Recommendations.** Once each year, or otherwise as required, each Divisional Chairman shall make to the Board written reports and recommendations for the activities and operations of the Division and its Sections represented. Reports of Divisions shall be published in the official journal.

Section 6. **Funds.** Funds of each Division shall be deposited with the Treasurer of this Society, and shall be administered by the Divisional Executive Committee in accordance with policy prescribed by the Board.

Section 7. **Sections.** Under rules and regulations prescribed by the Divisional Executive Committee, and with the approval of the Board, any national Division may authorize the creation of local Sections, to facilitate local participation in the activities of the Division and of this Society. Sections may elect officers, hold meetings, and engage in activities consonant with the policies of the Division and of this Society. Sections shall make reports of activities as required by the Divisional Executive Committee. Sections shall be represented in the National Council and the Board by the Chairmen of the Division with which they are affiliated.

Section 8. **Scope of Operations.** No Division or Section shall represent this Society as a whole for any purpose without the approval of the Board.

Section 9. **Reversion of Funds.** Upon discontinuance of any national Division, the funds and property thereof shall revert to this Society.

Article XII

DISTRICTS

Section 1. **General.** For purposes of promoting the general welfare of this Society through encouragement of member participation in its activities, and of assuring equitable membership representation in its government, the membership shall be divided into Districts which shall be as follows: Each State or Territory of the United States and each Province of Canada shall constitute a District.

Section 2. **Representation.** Each District shall be represented on the National Council by one (1) District Representative for each multiple of two hundred (200), or fraction thereof over one-half, members of this Society resident in that District on day of the calendar year in which the election is held. No District shall have less than one (1) District Representative. Should the membership of a

District fail to elect any or all District Representatives, they shall be appointed by the President with the approval of the Board of Directors. The Board shall have the right to alter the proportion between members and District Representatives.

Article XIII

CHAPTERS

Section 1. Under rules and regulations and in territories prescribed by the Board of Directors at the suggestion of the Chapters Committee, and for the purpose of furthering the local activity and the objectives of the Society, the PSA members, in a trading area may petition the Board for a Chapter as a PSA Chapter. The Board may grant, modify or reject such petition and may for adequate reasons, void any such Charter.

Section 2. All members of a Chapter shall be members of the Society and Chapter membership shall be voluntary. Chapters shall elect their own officers, finance their own activities, and develop their own programs, making every possible use of the Committee programs aimed at benefiting the entire photographic community. Chapters dues may be established by the Chapter with the approval of the Chairman of the Chapters Committee.

Section 3. No Chapter shall purport to represent other than its own members, nor shall it incur any unusual indebtedness or a total indebtedness greater than \$1.00 per member without specific approval of the Chairman of the Chapters Committee. In the event of dissolution of Chapter, its funds shall be held in escrow for a reasonable time by the PSA Treasurer for the use of a possible successor of the organization.

Section 4. Chapters shall cooperate with and assist local camera clubs, Councils and other local organizations in every way possible. Upon complaint of other members of the photographic community, the Chapters Committee Chairman shall appoint an investigating committee to report to him, and he shall recommend corrective action to the Board of Directors. Reports shall be made semi-annually to the Chairman of the Chapters Committee who shall, in turn, report to the Board of Directors at its annual meeting.

Article XIV

HONORARY REPRESENTATIVES

Section 1. *General.* For purposes of promoting international understanding and friendly relationships with organizations having common aims, activities, and interests, this Society may be represented in countries outside the United States by Honorary Representatives.

Section 2. *Duties.* Honorary Representatives shall be members both of this Society and of recognized photographic organizations in their own countries, faithfully shall represent this Society in their respective countries, shall promote friendly relationships with other photographic organizations, shall make recommendations for the welfare of members of this Society in their respective countries, and shall perform such other duties as may be prescribed by the President or Board of Directors.

Section 3. *Privileges.* Honorary Representatives shall enjoy the status of officials of this Society and, when visiting the United States, of members of its National Council.

Article XV

RECALL, SUSPENSION, AND EXPUSSION

Section 1. *General.* Final authority for the suspension and expulsion of members of this Society and for the recall of officers or officials shall rest with the Board of Directors.

Section 2. *Petition.* Any ten (10) or more members of this Society may petition the Board for the recall of any officer of this Society, Divisions, Sections, Districts, Chapters, or other units, for the recall of any official, or for the suspension or expulsion of any member. Such petition shall be filed in writing, clearly state the grounds upon which action is sought, and be subscribed with the signatures of all petitioners.

Section 3. *Investigation.* Upon receipt of proper petition for recall, suspension, or expulsion the Board shall appoint a committee to investigate the charges and to report within three (3) months.

Section 4. *Decision and Announcement.* Upon receiving the report of the investigating committee and after giving the impeached officer, official, or member at least one (1) month in which to make defense, the Board shall reach a decision by three-fourths (3/4) vote of the full Board. The decision of the Board shall be final. Petitioners and accused promptly shall be notified of the decision by the President.

Section 5. *Reinstatement.* The Board shall have the right, upon reconsidering evidence or upon receipt of additional information, to reinstate any member suspended or expelled or any officer or official removed from office. A three-fourths (3/4) vote of the full Board shall be necessary to such reinstatement.

Article XVI

PUBLICATIONS

Section 1. *Journal.* This Society shall publish an official journal, which shall be distributed to all members, and shall be available to other individuals and organizations under conditions prescribed by the Board of Directors.

Section 2. *Authorization.* The Board shall authorize the issuance of all official publications of this Society, which so shall be designated, and shall establish regulatory procedure and policy thereof.

Section 3. *Restrictions.* Unless authorized by the Board, no Division, District, Section, Chapter, Committee, officer, member, or group of members, shall prepare, edit, or issue any publication purporting to represent this Society as a whole, or to reflect the opinions thereof.

Section 4. *Responsibility.* Publications of this Society, or of any unit thereof, shall be identified as to source and authority. Each official publication shall be identified by the words: "Official Publication."

Article XVII

FUNDS AND ASSETS

Section 1. *Cash.* All funds of this Society shall be deposited in banks which are members of the Federal Deposit Insurance Corporation in the name of this Society, and subject to checks signed by either the President or the Treasurer, both of whom shall be bonded, with any other of the elected officers or the Executive Secretary or Office Manager as co-signer under the rules and regulations prescribed by the Board of Directors.

Section 2. *Assets.* All assets of this Society shall be subject to control by the Board.

Section 3. *Audit.* The Board shall provide for an annual audit of the books of this Society to be made within sixty (60) days after the close of the fiscal year. The report thereof, signed by the auditors, shall be published in the official journal.

Section 4. *Reserve Fund.* The Board may provide for the creation, alteration, or discontinuance, and otherwise shall exercise control over, reserve, endowment, or other allocated funds, and may allocate assets or income to such funds.

Section 5. *Budget.* A budget to guide the operations of this Society shall be prepared each year by the Finance Committee, and shall be submitted, in a form and at a time as required, to the Board.

Section 6. *Fiscal Year.* This Society's fiscal year shall be established by the Board.

Section 7. *Dissolution.* Dissolution of this Society, if necessary, shall be carried out in accordance with the provisions of the laws of the state in which this Society is incorporated.

Article XVIII

CONSTITUTION AND BY-LAWS

Section 1. *General.* This Constitution and these By-Laws shall constitute the basic rules and regulations of this Society.

Section 2. *Amendment by Board of Directors.* This Constitution and these By-Laws may be amended by a majority vote of the Board of Directors, but only after notification to the entire membership, and ratification by a majority of the votes cast by the members of the National Council within 60 days after the mailing of the ballots.

Section 3. *Amendment by National Council.* The National Council may at any time propose any amendment to this Constitution and these By-Laws and may call upon the Board of Directors for immediate action thereon.

Section 4. *Amendment by Members.* Any member in good standing of this Society may, at any time, submit in writing to the National Council any proposed amendment to this Constitution and these By-Laws. If the decision of the Council be unfavorable, the proposed amendment may be submitted in writing to the Board of Directors. If the decision of the Board be unfavorable, the proposed amendment shall, upon petition to the Board by not less than one hundred (100) members resident in at least three (3) Districts, be submitted to mail vote of the membership. A majority vote of the membership shall be necessary to adoption.

Section 5. *Reintroduction.* No provisions of this Constitution and these By-Laws shall be construed as prohibiting the reintroduction of any proposed amendments by stated procedures.

Section 6. *Publication.* This Constitution and these By-Laws, with current amendments so identified, shall be published annually in an official publication of this Society.

Article XIX

HONORS

Section 1. *General.* For purposes of assuring proper recognition of outstanding talents in and contributions to all fields of photography, this Society may, by procedure herein provided, create, establish, perpetuate, and confer Honors.

Section 2. *Honors.* The Honors of this Society shall be: (a) Associateship; (b) Fellowship; (c) Honorary Membership; and (d) Honorary Fellowship. Such Honors, unless revoked, shall be permanent. Recipients of Honors may appeal to their names these indications of their status: Associates, APSA; Fellows, FPSA; Honorary Members, Hon. PSA; and Honorary Fellows, Hon. FPSA. Honors heretofore conferred by the Associated Camera Clubs of America, by this Society, or by the Honors Committees of this Society, shall be retained by the recipients. FACI and AACI Honors previously conferred by the Amateur Cinema League shall be recognized by the Photographic Society of America; past recipients of said honors may continue to append to their names FACI or AACI, so long as they remain members in good standing in PSA.

Section 3. *Honors Committee.* Policies, practices, rules, and regulations governing the establishment and awarding of Honors, shall be prepared, directed and effectuated by the Honors Committee, subject to the review and approval of the Board. The Honors Committee shall be broadly representative of the interests and activities of this Society, and shall consist of eight members of the Society, not less than four of whom shall be Fellows, Honorary Members, or Honorary Fellows. Members of the Honors Committee shall be appointed by the President, with the approval of the Board of Directors, for one term of four years on such basis that the terms of one (1) Fellow, Honorary Member or Honorary Fellow and one (1) other member shall expire each year. The Honors Committee shall elect its own chairman to serve one (1) term of two (2) years. Appointments to fill unexpired terms shall be made by the President.

Section 4. *Procedure.* Procedure in establishing, directing and awarding Honors shall permit the Honors Committee to function without interference, except that:

- (a) Policies, practices, rules, and regulations of the Honors Committee shall be reviewed and approved annually by the Board.
- (b) Upon recommendation by the Honors Committee, the Board by a three-fourths (3/4) vote of the ballots cast shall confer Honorary Memberships and by a nine-tenths (9/10) vote of the ballots cast for Honorary Fellowships.
- (c) Honors, except Honorary Memberships and Honorary Fellowships, shall be conferred only upon members of this Society.
- (d) Policies and practices of the Honors Committee shall not operate to prevent any member of this Society from nominating for Honors any other member, in accordance with prescribed rules and regulations.
- (e) The number of living Honorary Fellows shall not exceed 25 at any one time.

Section 5. *Reports and Announcements.* The Honors Committee shall submit a written report of its activities to the Board at least once each year. Official announcement of Honors conferred shall be published as soon as practicable in the official journal. In awarding Fellowships, Honorary Memberships, and Honorary Fellowships, official announcements shall cite the accomplishments of the recipients upon which the awards are based.

PSA Honors and Requirements

GENERAL STATEMENT

PSA honors are awarded in recognition of contributions to the advancement of the art and science of photography. Such contributions take many forms, which may generally be divided into those resulting principally from proficiency and achievement and those primarily of a service nature. Since personal achievement alone does not necessarily contribute to the advancement of photography, it does not qualify the candidates unless combined with elements of service.

On the other hand, service may contribute substantially to the advancement of photography, even though the candidate's proficiency in the use of the medium may be limited.

(See Requirements for Honorary Membership and Associateship, Category II.)

PSA honors are not degrees of membership nor recognition of proficiency alone.

STATUTORY REQUIREMENTS

The candidate must have been an active member in good standing for at least four years before he is eligible for the Associateship.

The Candidate must have been an active member in good standing for at least seven years, and must have held the Associateship for at least two years, before he is eligible for the Fellowship. (This recognizes that the member may have been active for more than four years before receiving the APSA.) It is also presumed that the candidate has been active in photography for a period of at least ten years.

PROPOSER

The proposer must know the candidate personally through close association for a period of time, and must be able to state from his own knowledge the pertinent facts in the record of the candidate; and he must sign the affirmation to this effect which appears upon page one of the application.

CHANGE. In the past it has been presumed that the candidate is unaware of his candidacy. We are all aware that this has been the exception rather than the rule. Moreover, many deserving candidates have been rejected because the proposer lacked adequate information of the candidate's achievements. Therefore, it shall be recognized that the proposer is free to obtain all possible information from the candidate himself.

ENDORSERS

The proposer shall obtain as endorsers two members of PSA in good standing as of January 1 of the year in which the proposed honor is to be given, and who are familiar with the work of the candidate. However, the endorsers need not have the intimate knowledge of the candidate presumed on the part of the proposer.

DEADLINE

CHANGE. In the year 1959 and thereafter the deadline of March 15th shall be strictly enforced! Any application received after that date shall be returned to the proposer. Such applications will not be automatically entered the following year, but must be renewed by the proposer. The past practice of holding up Honors Awards for delinquent applications has laid an unnecessarily heavy load upon the Committee and upon the Headquarters personnel and has resulted in serious delays of the Committee's work.

EVIDENCE IN SUPPORT OF APPLICATIONS

Material evidence of the candidate's proficiency is not generally required, but if found necessary it will be requested by the Committee. Documented evidence, however, is required as indicated by the questions on the candidate's record form.

QUALIFICATIONS

The Honorary Fellowship (Hon. FPSA).

The Honorary Fellowship is the highest honor awarded by the Society. It is awarded only for unique or outstanding contributions of major importance to photography. The unanimous approval of the Honors Committee and 90 percent approval of the PSA Board are required. The number of living Honorary Fellows is limited to twenty-five. Candidates need not be members of the Society.

The Honorary Membership (Hon. PSA).

The Honorary Membership is awarded for outstanding service to photography, particularly through organizational or similar work. Proficiency in the use of the photographic medium is not a requirement. It may be recommended by a three-fourths vote of the Honors Committee and requires a three-fourths vote of the PSA Board for approval. Candidates need not be members of the Society.

The Fellowship (FPSA)

The Fellowship is awarded for outstanding contributions to the advancement of photography involving a high degree of proficiency and achievement, combined with such elements of service as the dissemination of acquired knowledge by lecturing, judging, instructing, publication of articles, papers, etc. Personal achievement alone does not qualify a candidate for this honor. A three-fourths vote of the Honors Committee is required for the Fellowship.

The Associateship (APSA).

The Associateship is awarded for material contributions to the advancement of photography, whether resulting primarily from proficiency and achievement or service alone. As in the case of the Fellowship, achievement must be combined with elements of service. The Associateship may be awarded by a majority vote of the Honors Committee.

INSTRUCTIONS TO THE PROPOSER

Before proposing any candidate consider the responsibility you are assuming, and your duty to the Society which transcends any desire you may have to do a favor for someone.

a. Present all facts in a brief, concise manner, avoiding exaggeration.

b. Try to give the Committee a picture of the candidate as a man or a woman as well as a photographer. Do not fill several pages with details of the salon record and leave all other (possibly more pertinent) information to be squeezed into the last few paragraphs.

c. Do not submit any application until and unless you are fully convinced that the candidate's achievements are unquestionably far above average. This will eliminate the great number of applications received each year on behalf of candidates whose records, although truly admirable, are duplicated dozens of times throughout the country.

EXAMPLES OF QUALIFICATION IN THE VARIOUS FIELDS OF PHOTOGRAPHY

(A) Monochrome Printing. As this is largely in the field of salon exhibition, considerable weight will be given the salon record when supplemented by other requirements. Publication records among non-exhibitors can be considered for salon record. Organization, salon promotion, judging and the like are all important.

(B) Color Transparencies and Color Printing. As in the case of monochrome photography, weight will be given to the candidate's exhibition record, organization and promotion of salons and exhibitions, judging, etc. Mastery of creative design, composition and color harmony are important qualifications. Proficiency and achievement in the use of color photography in fields other than pictorial may be considered under this category or, if incidental, may be considered collateral in the field of major endeavor.

(C) Motion Picture. Direction, production, editing, titling, special effects will all be given full weight as will collateral work such as synchronized sound. Any other contribution to the advancement of motion pictures will be considered.

(D) Journalism, Documentary, etc. Because of the nature of this work, the publication record of the candidate is of great importance. Illustrative material used in any medium will be considered.

(E) Nature. The salon record will be considered, but it is also important to include reports of material used for museum and teaching purposes, illustrations for books and articles as well as lecture material.

(F) Research. The degree of responsibility for initiating and directing important research carries important weight. Published works and patent numbers are of importance in this record.

(G) Scientific and Technical. This includes all specialized fields such as scientific, including clinical, commercial and industrial. Such fields as spectroscopy, photomicroscopy, X-Ray, high-speed motion picture, serial, new applications. Special weight will be carried by publication, patents and other documentary evidence.

(H) Professional. Achievements in creative illustration and advertising photography, portraiture, general commercial and industrial photography will all be carefully considered.

(I) Graphic Arts. Original work in any of the fields of photo-mechanical reproduction will be considered.

(J) Education. Weight is given to records of organization, supervision and teaching of photographic classes: writing, publishing and editing of photographic publications. Lecturing upon photographic subjects. In short all activity tending toward the dissemination of photographic knowledge will be considered carefully.

(K) Organization and Promotion. Any and all activities concerned with organizational work in photography will be considered here. This includes

organization of clubs, salons, tours, lecture courses, arranging programs, arranging radio and television publicity and any and all activities tending toward the advancement of photography. For the ultimate achievement in this field, the Honorary PSA is awarded.

(L) Stereo Photography. Weight will be given to the Candidate's exhibition record, organization and promotion of salons and exhibitions, judging, etc. Mastery of stereo technique, creative design, composition and color harmony are important qualifications.

INFORMATION TO BE GIVEN ABOUT THE CANDIDATE'S RECORD

Give specific answers to those questions which are applicable. Undoubtedly some will not apply. Paragraph the answers and number the paragraphs to correspond with the question numbers. Give concise and brief, as well as specific, answers. Before filling out any part of this form be sure to read the instructions.

- 1) Present occupation and position, if photographic or related to photography.
- 2) Positions held previously, if photographic or related to photography.
- 3) Photographic organization offices held: chairmanships, committee membership or special services performed or to which appointed or elected, and when.
- 4) Photographic Honors, Medals and Awards received, where and when.
- 5) Judging—pictorial, color, nature, photojournalistic, scientific and technical, etc. Name the salons, shows, or competitions judged, where and when.
- 6) Photographic (or related) papers, articles, or books published. For books give title, name of co-authors (if any), publisher, years of publication, number of pages, and whether or not illustrated. For papers and articles give title, name of co-authors, volume and page numbers, month and year.
- 7) Photographic lectures: Give approximate number of lectures; subjects discussed; before what organizations; courses taught (non-professionally), where and when. Note whether payment (essence or fees) received for lectures.
- 8) Professional teacher in field of photography or related subjects: Give subjects taught, where and when.
- 9) Exhibitions in any field of monochrome and/or color photography:
 - a. State number of years of exhibiting; approximate number of salons or other exhibitions in which prints, slides or larger transparencies have been judged and exhibited each year; and the approximate total number of different pictures in monochrome and/or color exhibited each year.
 - b. Name the more important salons or other shows in which prints, slides, or larger transparencies have been chosen for exhibition.
 - c. If pictures have been submitted in competition, name competitions, and number and nature of prizes or awards received.
 - d. If pictures have been exhibited by invitation, name shows, where and when.
- 10) If field of motion pictures—amateur or professional, scientific or technical:
 - a. Give titles of pictures produced, directed, or on which work was done. Include statements as to nature and extent of the work, and the degree of responsibility for that work; where and when the work was done, and the fields of coverage.
 - b. Indicate where and approximately when pictures were shown before audiences.
 - c. State any improvements contributed to art or technique of motion picture making.
- 11) Patents (of photographic, or closely related nature, only) granted: Give co-patentee, if any, title, country, patent number and date issued.
- 12) Photographic products developed or invented (not necessarily patented) or processes perfected.
- 13) Industrial, advertising, commercial, portrait, or other type of professional photography, or photojournalism: Give specific details as to nature of work done or being done.
- 14) Supervisory position in industry, research, or other technical field of photographic or closely related nature: State nature of supervision and type of products or research supervised.

THE NATIONAL HONORS COMMITTEE MAY AT ITS DISCRETION WAIVE ANY OF THE SPECIFIC REQUIREMENTS WHEN SUCH WAIVER IS NOT INCONSISTENT WITH THE OBJECTIVES OF THE SOCIETY AND ITS POLICIES. IT MAY ALSO AWARD HONORS OTHER THAN THOSE REQUESTED WHEN IT DEEMS THEM MORE APPROPRIATE TO THE QUALIFICATIONS OF THE CANDIDATE.

The Statement of Policies above is based on the report of the 1958 National Honors Committee.

The first of these is the fact that the city of Honolulu is located on a narrow strip of land, which is bounded by the ocean on three sides. This makes it difficult to expand the city's area, and it is therefore necessary to build upwards. The second fact is that the city is located in a valley, which is surrounded by steep hills. This makes it difficult to build roads and other infrastructure, and it is therefore necessary to build upwards. The third fact is that the city is located in a tropical climate, which is characterized by high humidity and frequent rain. This makes it difficult to build buildings and other infrastructure, and it is therefore necessary to build upwards.

The city of Honolulu is a unique and beautiful place, and it is a great example of how to build a city in a difficult environment. The city's location, its history, and its culture are all part of what makes it so special. And the city's buildings and infrastructure are a testament to the ingenuity and resilience of its people.

MEMO

SUBJECT: Limitations, successful

FROM: Paul Klingenstein

TO: All photo dealers

KLING believes in successful limitations.

We limit ourselves to the distribution of a harmonious family of outstanding quality products.

We limit our franchises, wherever possible, to protect the dealer's investment.

We limit the dealer's risk -- by offering full inventory protection and an honest service policy.

We limit model changes, to afford the KLING DEALER precious peace of mind.

Through these principles, KLING and the KLING DEALERS have maintained a continuous partnership, marking its tenth fruitful year in 1960.

KLING pledges you future years of growth, future years of profit -- through the same sound policies that have helped us build this mutual success!

You're master of every situation

Kodak Retina Reflex S Camera starts you with a precision 50mm f/2.8

- accepts your choice of 135mm or 85mm tele lenses, 35mm or 28mm wide-angle
- lets you add close-up aids to work as near as 6 inches
- gives you full-area ground-glass plus precision split-field rangefinder
- shows you every subject detail big-as-life, corner-to-corner, always at wide-open brilliance, right through the taking lens
- puts exposure control at your finger-tips, with meter coupled directly to lens
- tells you field depth automatically at each setting of every lens
- keeps lens and shutter linked for correct exposure
- lets you select from 10 shutter speeds
- provides automatic stop-down to preselected aperture as you shoot
- and a full family of specialized aids

Put these masterful features to work for you

BRONICA

the new fully automatic
2 1/4-square single-lens reflex

The new Bronica is in a class by itself. Never — never before in all photographic history — has so much thought and planning been lavished upon the design of a single camera. And never has such an effort been crowned with greater success.

The new Bronica is an instrument to excite immediate admiration. It is truly the 'dream' camera, designed with imagination and endowed with unusually ingenious, automatic features that make its use delightfully simple, effortlessly smooth and fast.

INSTANT-RETURN AUTOMATIC MIRROR — Retracts for the exposure — then instantly returns to viewing position. The finder image never blacks out.

INSTANT-REOPEN AUTOMATIC DIAPHRAGM — Wide open for focusing and viewing, automatically closes down for the exposure — then, instantly reopens to full aperture. The finder image never dims.

DEPTH-OF-FIELD PREVIEW BUTTON — Stops the lens down for observing depth-of-field, or for selecting 'taking' aperture on the basis of desired depth. Diaphragm instantly reopens as button is released.

THE UNCANNY 'FILMINDER' BACK — You can interchange film types by interchanging backs. The 'Filminder' back *remembers* whether or not the film had been advanced, and whether or not the shutter had been previously wound. No attention need be paid to either — the camera and back automatically perform the required functions.

Film protection is also automatic. The back cannot be removed from the camera until the dark-slide is inserted — and once removed, the dark-slide cannot be withdrawn; and when the back is attached, the shutter will not release unless the dark-slide is *completely* withdrawn.

The 'Filminder' back has an Automatic Film Tension System which holds the film taut and perfectly flat for the exposure, yet automatically relaxes for advancing the film.

NIKKOR LENSES — Acknowledged to be the finest in 35mm optics, these superb lenses are now available for the 2 1/4-square format as standard Bronica equipment, covering focal lengths from 50mm wide-angle through 1000mm super telephoto.

WIDE-SPEED-RANGE SHUTTER — Focal plane shutter of new and original design has a range of speeds from 10 seconds to 1/1250th with X and FP Synchronization, and a variable, calibrated self-timer.

ZENZA BRONICA
with 75mm NIKKOR f/2.8 Lens \$489.50
